REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Members of the Profit Sharing and 401(k) Trustee Committee
Universal Forest Products, Inc.
Employees' Profit Sharing and 401 (k) Retirement Plan
Grand Rapids, Michigan

We have audited the accompanying statements of net assets available for benefits of Universal Forest Products, Inc. Employees' Profit Sharing and 401 (k) Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming opinions on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements

1. Significant Accounting Policies

Basis of Accounting

The financial statements of the Universal Forest Products, Inc. Employees' Profit Sharing and 401(k) Retirement Plan (the Plan) are presented on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts. Although actual results could differ from these estimates, management believes estimated amounts recorded are reasonable and appropriate.

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

New Accounting Pronouncement

As of December 31, 2009, the Plan adopted Accounting Standards Update ("ASU") 2009-12 regarding fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent). This update applies to investments that do not have a readily determinable fair value and are held by an entity that is required to report investment assets at fair value. This update creates a practical expedient to measure the fair value of such investments on the basis of the net asset value per share (or its equivalent) and requires disclosures by major category of the investments about the attributes of investments, such as the nature of any restrictions on the investors' ability to redeem the investments at the measurement date, any unfunded commitments, and the investment strategies of the investees. Although the adoption of this update did not materially impact the Plan's financial statements, the Plan is now required to provide additional disclosures with respect to its investments in common collective trusts.

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*. This standard requires new disclosures on the amount and reason for transfers in and out of Level 1 and 2 recurring fair value measurements. The standard also requires disclosure of activities, on a gross basis, including purchases, sales, issuances, and settlements, in the reconciliation of Level 3 fair value recurring measurements. The standard clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. The new disclosures regarding Level 1 and 2 fair value measurements and clarification of existing disclosures are effective for periods beginning after December 15, 2009. The disclosures about the reconciliation of information in Level 3 recurring fair value measurements are required for periods beginning after December 15, 2010. The requirements of the standard are not expected to have a significant impact on the Plan's current fair value disclosures.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. The Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following provides a description of the three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Significant observable inputs such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable or can be derived from or corroborated by observable market data by correlation or other means.

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Common Stock: Valued at quoted market prices in an exchange and active market in which the securities are traded.

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

Mutual Funds: Valued at quoted market prices in an exchange and active market, which represent the net asset values of shares held by the Plan.

Common Collective Trust Funds: Valued based on audited information reported by the issuer of the common collective trust at year-end.

Participant Loans: Loans to plan participants are valued at their outstanding balances, which approximates fair value.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan also invests in investment contracts through a common collective trust (Union Bond & Trust Company Stable Value Fund, often referred to as "Morley Stable Value Fund"). Investment contracts held by a defined contribution plan are required to be reported at fair value, with an adjustment to contract value in the statement of net assets available for benefits because contract value of these contracts is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the Union Bond & Trust Company Stable Value Fund represents contributions plus earnings, less participant withdrawals and administrative expenses. There is no restriction in place with respect to the daily redemption of the common collective trust.

The Universal Forest Products Stock Fund (the Fund) is tracked on a unitized basis. The Fund consists of common stock of Universal Forest Products, Inc. (Plan Sponsor) and funds that are held in the Union Bond & Trust Company Stable Value Fund that are sufficient to meet the Fund's daily cash needs. Unitization of the Fund allows for daily trades. The value of a unit reflects the combined market value of the common stock and the Union Bond & Trust Company Stable Value Fund held by the Fund. At December 31, 2009 and 2008, 1,142,403 and 1,074,204 units, respectively, were outstanding with a value of \$36.85 and \$27.41 per unit, respectively.

The Evergreen Short Intermediate Bond Fund (the Bond Fund) is also tracked on a unitized basis. The Bond Fund consists of the Evergreen Short Intermediate Fund and funds held in cash that are sufficient to meet the Fund's daily needs. Unitization of the Bond Fund allows for daily allocation of interest earned to participant accounts. The value of a unit reflects the combined market value of the Evergreen Short Intermediate Bond Fund and the cash held. At December 31, 2009 and 2008, 73,693 and 157,261 units, respectively, were outstanding with a value of \$13.31 and \$11.65 per unit, respectively.

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

The Pimco Total Return Fund (the Return Fund) is also tracked on a unitized basis. The Return Fund consists of the Pimco Total Return Fund and funds held in cash that are sufficient to meet the Fund's daily needs. Unitization of the Return Fund allows for daily allocation of interest earned to participant accounts. The value of a unit reflects the combined market value of the Pimco Total Return Fund and the cash held. At December 31, 2009 and 2008, 227,403 and 253,449 units, respectively, were outstanding with a value of \$18.24 and \$16.06 per unit, respectively.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Concentration of Investments

Included in investments at December 31, 2009 and 2008 are shares of the Plan Sponsor's common stock with an aggregate fair value of \$41,227,863 and \$28,924,912, respectively. This investment represents 29% and 24% of total investments at December 31, 2009 and 2008, respectively. A significant decline in the market value of the sponsor's stock would significantly affect the net assets available for benefits.

Administrative Expenses

Administrative expenses incurred in connection with the operations of the Plan are paid by the Plan Sponsor, except for loan and certain investment fees, which are borne by the Plan. Substantially all of these expenses are paid to parties-in-interest of the Plan and are based on reasonable and customary rates for the related services.

2. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

The Plan is a defined-contribution, profit sharing and 401(k) plan that provides tax-deferred benefits for substantially all eligible employees of the Plan Sponsor, excluding the employees of separate subsidiaries that maintain a similar defined-contribution plan and those covered under a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

Eligible employees are those who are 18 years or older and have completed 1,000 hours of employment (year of service) during the 12-month period following date of employment or, where additional periods are necessary, on succeeding Plan year-end dates. All newly eligible employees on and after July 1, 2006 are automatically enrolled in the Plan at a deferral level of 3% of eligible compensation.

Participants may voluntarily contribute up to 75% of their eligible compensation as a 401(k) contribution subject to certain regulatory limitations. Participant contributions to the Plan vest immediately.

The Plan Sponsor contributes regular discretionary matching contributions and may contribute additional discretionary matching contributions. Regular discretionary matching contributions are made quarterly and were 25% and 50% of participant deferrals in 2009 and 2008, respectively, subject to a limit of 6% of each participant's compensation. Additional discretionary matching contributions may be made at the end of each Plan year. These amounts are not guaranteed, and may vary from year to year as the Plan Sponsor is not obligated to make such contributions.

The Plan Sponsor may also contribute a discretionary profit sharing amount annually as determined by management and approved by the Plan Sponsor's Board of Directors. The Plan Sponsor's annual profit sharing contributions are allocated to each participant's account in the same ratio that each participant's total compensation for the Plan year bears to the total compensation of all participants for such year.

Employer contributions are subject to a vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 but less than 6	80
6 or more	100

The vested portion of terminated and retired participants' accounts are available for distribution following a separation from service. Effective January 1, 2006, all forfeitures are used to offset the Plan Sponsor's matching contributions. During 2009 and 2008, forfeitures of approximately \$180,000 and \$325,000, respectively, were used to offset the Plan Sponsor's matching contributions.

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

Participants may select from various investment options made available by the Plan. Each participant's account is credited with the participant's contribution, an allocation of the Plan Sponsor's contribution, if any, Plan earnings and losses and certain administrative expenses. Earnings allocations are based on account balances, as defined in the Plan agreement.

Participants may borrow from their account a minimum amount of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 25 years for the purchase of a residence. The loans bear interest at a rate equal to the prime rate (3.25% at December 31, 2009) plus 2% calculated on a daily basis. A participant may only have five loans outstanding at any time and one new loan for every 12-month period. Effective April 1, 2009, a participant may only have two loans outstanding at any time.

The Plan Sponsor intends to continue the Plan indefinitely, but reserves the right to terminate or amend the Plan at any time. In the event of termination of the Plan, all participants are automatically fully vested in the value of their accounts and will be paid in full.

The Plan Sponsor has determined that during the year ended December 31, 2008, the Plan had a partial termination due to certain discontinued operations. All affected participants became 100% vested in their accounts, resulting in additional benefits to be paid to participants in the amount of \$146,900. The Plan Sponsor has deposited the previously forfeited amount into the trust and the affected participants were paid accordingly.

3. Transfers

As permitted by the plan, funds totaling approximately \$212,000 were transferred to the Shawnlee Construction LLC 401(k) Plan (an affiliated plan) during 2009 due to employee transfers.

4. Investments

The tables below set forth by level within the fair value hierarchy the Plan's investments as of December 31, 2009 and 2008.

**Investment Assets at Fair Value
as of December 31, 2009**

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 41,227,863		\$ —	\$ 41,227,863
Common collective trust funds		\$ 40,031,141		40,031,141
Mutual funds:				
Bond funds	5,129,026			5,129,026
Target funds	20,887,609			20,887,609
Domestic stock funds	28,286,662			28,286,662
International stock funds	4,995,692			4,995,692
Total mutual funds	59,298,989			59,298,989
Participant loans		7,423,026		7,423,026
Total investments at fair value	\$100,526,852	\$ 47,454,167	\$ —	\$147,981,019

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

**Investment Assets at Fair Value
as of December 31, 2008**

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 28,924,912		\$ —	\$ 28,924,912
Common collective trust funds		\$ 41,113,848		41,113,848
Mutual funds	50,795,746			50,795,746
Participant loans		8,875,400		8,875,400
Total investments at fair value	\$ 79,720,658	\$ 49,989,248	\$ —	\$ 129,709,906

The Plan's investments (including investments purchased and held during the year) appreciated (depreciated) in fair value as follows:

	Year Ended December 31	
	2009	2008
Common stock	\$ 12,722,953	\$ (301,973)
Common collective trust funds	1,004,437	(2,527,575)
Mutual funds	12,267,732	(27,576,828)
	\$ 25,995,122	\$ (30,406,376)

Individual investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	December 31	
	2009	2008
Union Bond & Trust Company Stable Value Fund	\$ 35,351,373	\$ 36,058,693
T. Rowe Price Retirement 2020 Fund	9,369,081	6,828,899
Universal Forest Products Common Stock	41,227,863	28,924,912
Van Kampen Growth and Income Fund	10,438,413	9,434,080
Participant loans	7,423,026	8,875,400

Universal Forest Products, Inc. Employees' Profit Sharing and
401(k) Retirement Plan

Notes to Financial Statements (continued)

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 2, 2004, stating that the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

6. Difference Between Financial Statements and Form 5500

The following is a reconciliation of assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2009	2008
Net assets available for benefits from the financial statements	\$ 148,007,776	\$ 132,277,865
Net adjustment to fair value for fully benefit responsive investment contracts	165,874	(1,970,304)
Assets available for benefits from the Form 5500	<u>\$ 148,173,650</u>	<u>\$ 130,307,561</u>

The following is a reconciliation of the net decrease in net assets per the financial statements to the Form 5500:

	December 31	
	2009	2008
Net increase (decrease) in net assets from the financial statements	\$ 15,942,044	\$ (32,380,815)
2009 Net adjustment to fair value for fully benefit responsive investment contracts	165,874	
2008 Net adjustment to fair value for fully benefit responsive investment contracts	1,970,304	(1,970,304)
2007 Net adjustment to fair value for fully benefit responsive investment contracts		294,242
Increase (decrease) in net assets from the Form 5500	<u>\$ 18,078,222</u>	<u>\$ (34,056,877)</u>
