FORM 10-K

(X) ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934. FOR FISCAL YEAR ENDED DECEMBER 27, 2003.

0R

() TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934. For the transition period from _____ to _____

Commission File No.: 0-22684

UNIVERSAL FOREST PRODUCTS, INC. (Exact name of registrant as specified in its charter) MICHIGAN 38-1465835 (State or other jurisdiction of (I.R.S. Employer incorporation or organization) Identification No.)

2801 E. BELTLINE, N.E., GRAND RAPIDS, MICHIGAN (Address of principal executive offices)

49525 (Zip Code)

(616) 364-6161 (Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each Class Name of each exchange on which registered

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, NO PAR VALUE (Title of Class)

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13, or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes: (X) No: ()

Indicate by checkmark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. (X)

Indicate by checkmark whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Act). Yes: (X) No: ()

As of June 28, 2003, 17,738,188 shares of the registrant's common stock, no par value, were outstanding. The aggregate market value of the common stock held by non-affiliates of the registrant (i.e. excluding shares held by executive officers, directors, and control persons as defined in Rule 405, 17 CFR 230.405) on that date was \$265,224,186 computed at the closing price of \$20.64 on that date.

As of February 1, 2004, 17,818,836 shares of the registrant's common stock, no par value, were outstanding.

Documents incorporated by reference:

- (1) Certain portions of the Company's Annual Report to Shareholders for the fiscal year ended December 27, 2003 are incorporated by reference into Part I and II of this Report.
- (2) Certain portions of the Company's Proxy Statement for its 2004 Annual Meeting of Shareholders are incorporated by reference into Part III of this Report.

ITEM 1. BUSINESS.

(a) GENERAL DEVELOPMENT OF THE BUSINESS.

Universal Forest Products, Inc. was organized as a Michigan corporation in 1955. We engineer, manufacture, treat, distribute and install lumber, composite, plastic and other building products to the DIY/retail, site-built construction, manufactured housing, industrial and other markets. We currently operate more than 95 facilities throughout the United States, Canada, and Mexico.

Information relating to current developments in our business is incorporated by reference from our Annual Report to Shareholders for the fiscal year ended December 27, 2003 ("2003 Annual Report") under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations." Selected portions of the 2003 Annual Report are filed as Exhibit 13 with this Form 10-K Report.

Our Internet address is www.ufpi.com. Through our Internet web site, we make available free of charge, as soon as reasonably practical after such information has been filed or furnished to the SEC, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act.

(b) FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS.

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information ("SFAS 131") defines operating segments as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Under the definition of a segment, our Eastern and Western Divisions may be considered an operating segment of our business. Under SFAS 131, segments may be aggregated if the segments have similar economic characteristics and if the nature of the products, distribution methods, customers and regulatory environments are similar. We have aggregated our divisions into one reporting segment, consistent with SFAS 131. Accordingly, separate industry segment information is not presented.

(c) NARRATIVE DESCRIPTION OF BUSINESS.

We presently engineer, manufacture, treat, distribute and install lumber, composite, plastic and other building products to the DIY/retail, site-built construction, manufactured housing, industrial and other markets. Each of these markets is discussed in the paragraphs which follow.

DIY/RETAIL MARKET. The customers comprising this market are primarily national home center retailers, retail-oriented regional lumberyards and contractor-oriented lumberyards. Customers in this market are serviced by our regional sales staff and are assisted by personnel from our headquarters. Generally, terms of sale are established for annual periods, and orders are placed with our regional facilities in accordance with established terms. One customer, The Home Depot, accounted for approximately 30% of our total net sales for fiscal 2003 and 2002, and 33% for 2001.

From time to time we enter into certain sales contracts with The Home Depot. The contracts are limited to the establishment of general sales terms and conditions, such as delivery, invoicing, warranties and other standard, commercial matters. Sales are made by the release of purchase orders to us for particular quantities of certain products. We also enter into marketing agreements and rebate agreements with The Home Depot. The marketing agreements provide a certain percentage of our sales revenue or a minimum dollar amount will be committed to generate sales for us and The Home Depot.

We currently supply customers in this market from over 50 of our locations. These regional facilities are able to supply mixed truckloads of products which can be delivered to customers with rapid turnaround from receipt of an order. Freight costs are a factor in the ability to competitively service this market, especially with treated wood products because of their heavier weight. The close proximity of our regional facilities to the various outlets of these customers is a significant advantage when negotiating annual sales programs.

The products offered to customers in this market include dimensional lumber (both preserved and unpreserved) and various "value-added products," some of which are sold under our trademarks. Value-added products may be preserved or unpreserved, and include the following:

- - The Deck Necessities(R) group of products consists of decking, balusters, spindles, decorative posts, handrails, stair risers, stringers and treads.
- - The Fence Fundamentals(TM) group of products includes various styles of fences, as well as gates, posts and other components.
- - The Outdoor Essentials(R) group of products consists of various home and garden and landscaping items.
- - Lattice is sold under the Lattice Basics(TM) trademark for use as skirting on decks, trellises and various outdoor home improvement projects.
- - The Storage Solutions(TM) product line consists primarily of storage building frames and trusses.

In addition to our conventional lumber products, we offer composite and plastic alternative products sold under the following trade names:

- - The Perennia(TM) group of fencing products provides customers with a low maintenance alternative for their fencing needs.
- - The TechTrim(TM) product line consists of exterior trim boards made from a polymer which is impervious to moisture.

- - The Everx(R) composite decking group of products includes decking, balusters, railings, caps and sleeves manufactured from a proprietary formula of wood dust and high-density polyethylene plastic. We are a licensee of this technology.

We also sell engineered wood products to this market, which include roof trusses, wall panels and engineered floor systems (see "Site-Built Construction Market" below).

We are not aware of any competitor that currently manufactures, treats and distributes a full line of both value-added and commodity products on a national basis. We face competition on individual products from several different producers, but the majority of these competitors tend to be regional in their efforts and/or do not offer a full line of outdoor lumber products. We believe the breadth of our product offering, geographic dispersion, close proximity of our plants to core customers, purchasing expertise and service capabilities provide significant competitive advantages in this market. As the customer base in this market continue to consolidate, we believe we are well-positioned to capture additional market share.

SITE-BUILT CONSTRUCTION MARKET. We entered the site-built construction market through strategic business acquisitions beginning in 1997. The customers comprising this market are primarily large-volume, multi-tract builders and smaller volume custom builders. Customers are serviced by our sales, engineering and design personnel in each region. Generally, terms of sale and pricing are determined based on quotes for each order.

We currently supply customers in this market from more than 70 facilities located in more than 20 different states and Canada. These facilities manufacture various engineered wood products used to frame residential or commercial projects, including roof and floor trusses, wall panels, Open Joist 2000(R) and I-joists. Freight costs are a factor in the ability to competitively service this market due to the space requirements of these products on each truckload.

We also install engineered wood products for customers in certain regional markets. We believe that providing a comprehensive framing package, including installation, provides a competitive advantage.

Competitors in this market include lumberyards who also manufacture components, as well as regional manufacturers of components. Our objective is to continue to increase our manufacturing capacity and framing capabilities for this market while developing a national presence. We believe our primary competitive advantages relate to the engineering and design capabilities of our regional staff, customer relationships, product quality and timeliness of delivery.

MANUFACTURED HOUSING MARKET. The customers comprising the manufactured housing market are producers of mobile, modular and prefabricated homes and recreational vehicles. Products sold to customers in this market consist primarily of roof trusses, lumber cut and shaped to the customer's specification, plywood, particle board and dimensional lumber, all intended for use in the construction of manufactured housing. Sales are made by personnel located at each regional facility

based on customer orders. Our engineering and support staff act as a sales resource to assist customers with truss designs, obtaining various building code approvals for the designs and aiding in the development of new products and manufacturing processes.

While no competitor operates in as widely-dispersed geographic areas as we do, we face competition from suppliers in many geographic regions. Our principal competitive advantages include our product knowledge, the capacity to supply all of the customer's lumber requirements, the ability to deliver engineering support services, the close proximity of our regional facilities to our customers and our ability to provide national sales programs to certain customers.

INDUSTRIAL AND OTHER MARKET. We define our industrial market as industrial manufacturers and agricultural customers who use pallets, specialty crates and wooden boxes for packaging, shipping and material handling purposes. Many of the products sold to this market may be produced from the by-product of other manufactured products, thereby allowing us to increase our raw material yields while expanding our business. Competition is fragmented and includes virtually every supplier of lumber convenient to the customer. We service this market with our regional sales personnel supported by a centralized national sales and marketing department.

SUPPLIERS. We are one of the largest domestic buyers of solid sawn lumber from primary producers (lumber mills). We use primarily southern yellow pine in our pressure-treating operations and site-built component plants in the Southeastern United States, which we obtain from mills located throughout the states comprising the Sunbelt. Other species we use include "spruce-pine-fir" from various provinces in Canada; hemlock, Douglas fir and cedar from the Pacific Northwest; inland species of Ponderosa pine; and Radiata pine. There are numerous primary producers for all varieties we use, and we are not dependent on any particular source of supply. Our financial resources, in combination with our strong sales network and ability to remanufacture lumber, enable us to purchase a large percentage of a primary producer's output (as opposed to only those dimensions or grades in immediate need), thereby lowering our average cost of raw materials. We believe this represents a competitive advantage.

INTELLECTUAL PROPERTY. We own a patent relating to a tie-down strap patent related to truss components, and a patent on machinery used in the recycling of drywall. We also have several patents pending on technologies related to our business. In addition, we own five registered trade names or trademarks: PRO-WODD(R) relating to preservative-treated wood products; Deck Necessities(R) relating to deck component products; Outdoor Essentials(R) related to lawn and garden items such as planter boxes, fencing products and lattice products; the Everx(R) trademark for our recently acquired composite material; and the pine tree logo. As we develop proprietary brands, we may pursue registration or other formal protection. In addition, we claim common law trademark rights to several other trade names or trademarks. While we believe our patent and trademark rights are valuable, the loss of a patent or any trademark would not be likely to have a material adverse impact on our competitive position.

SEASONAL INFLUENCES. Our manufactured housing and site-built construction markets are affected by seasonal influences in the northern states during the winter months when installation and construction is more difficult.

The activities in the DIY/retail market have substantial seasonal impacts. The demand for many of our DIY/retail products is highest during the period of April to August. Accordingly, our sales to the DIY/retail market tend to be greater during the second and third quarters. We build our inventory of finished goods throughout the winter and spring to support this sales peak. Restraints on production capacity make this a necessary practice which potentially exposes us to adverse effects of changes in economic and industry trends. Since 1995, inventory management initiatives, supply programs with vendors and programs with customers have been used to reduce our exposure to adverse changes in the commodity lumber market and decrease demands on cash resources.

BACKLOG. Due to the nature of our DIY/retail, manufactured housing and industrial businesses, backlog information is not meaningful. The maximum time between receipt of a firm order and shipment does not usually exceed a few days. Therefore, we would not normally have a backlog of unfilled orders in a material amount. The relationships with our major customers are such that we are either the exclusive supplier of certain products and/or certain geographic areas, or the designated source for a specified portion of the customer's requirements. In such cases, either we are able to forecast the customer's requirements or the customer may provide an estimate of its future needs. In neither case, however, will we receive firm orders until just prior to the anticipated delivery dates for the products in question.

On January 1, 2004 and 2003, backlog orders associated with the site-built construction business approximated \$35.8 million and \$36.3 million, respectively, representing approximately seven and ten weeks of production, respectively. We believe the relatively short time period associated with our backlog, in certain regions, provides a competitive advantage.

RESEARCH AND DEVELOPMENT. Our research and development efforts generally fall into four categories: engineering and testing of new truss designs; design and development of wood treatment systems and manufacturing processes; design and development of machinery and tooling of various wood shaping devices; and development of new products. Although important to our competitive strengths and growth, the dollar amount of research and development expenditures has not typically been material to us.

WOOD PRESERVATION TREATMENT. Information required for environmental disclosures is incorporated by reference from Footnote N of the Consolidated Financial Statements presented under Item 8 herein.

EMPLOYEES. At February 1, 2004, we had approximately 8,000 employees. One of our subsidiaries has certain production employees who are represented by a labor union. We believe relations with our employees are good.

(d) FINANCIAL INFORMATION ABOUT GEOGRAPHIC AREAS.

The dominant portion of our operations and sales occur in the United States. Separate financial information about foreign and domestic operations and export sales is incorporated by reference from Footnote O of the Consolidated Financial Statements presented under Item 8 herein.

ITEM 2. PROPERTIES.

Our headquarters building is located on a ten acre site adjacent to a main thoroughfare in suburban Grand Rapids, Michigan. The headquarters building consists of several one and two story structures of wood construction.

We currently have more than 95 facilities located throughout the United States, Canada, and Mexico. These facilities are generally of steel frame and aluminum construction and situated on fenced sites ranging in size from 7 acres to 48 acres. Depending upon function and location, these facilities typically utilize office space, manufacturing space, treating space and covered storage.

We own all of our properties, free from any significant mortgage or other encumbrance, except for 12 regional facilities which are leased. We believe all of these operating facilities are adequate in capacity and condition to service existing customer locations.

ITEM 3. LEGAL PROCEEDINGS.

Information regarding our legal proceedings is set forth in Note N of our Consolidated Financial Statements which are presented under Item 8 of this Form 10-K and are incorporated herein by reference.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

ADDITIONAL ITEM: EXECUTIVE OFFICERS OF THE REGISTRANT.

The following table lists the names, ages and positions of all of our executive officers as of February 1, 2004. Executive officers are elected annually by the Board of Directors at the first meeting of the Board following the annual meeting of shareholders.

Name	Age	Position
William G. Currie	56	Vice Chair. of the Board and Chief Exec. Officer, Universal Forest Products, Inc.
Michael B. Glenn	52	President and Chief Operating Officer, Universal Forest Products, Inc.
C. Scott Greene	48	President, Universal Forest Products Eastern Division, Inc.
Robert K. Hill	56	President, Universal Forest Products Western Division, Inc.
Donald L. James	44	Exec. Vice President Site-Built, Universal Forest Products Eastern Division, Inc.
Robert D. Coleman	49	Exec. Vice President Manufacturing, Universal Forest Products, Inc.
Matthew J. Missad	43	Executive Vice President and Secretary, Universal Forest Products, Inc.
Michael R. Cole	37	Chief Financial Officer and Treasurer, Universal Forest Products, Inc.

William G. Currie joined us in 1971. From 1983 to 1990, Mr. Currie was President of Universal Forest Products, Inc., and he was the President and Chief Executive Officer of The Universal Companies, Inc. from 1989 until the merger to form Universal Forest Products, Inc. in 1993. On January 1, 2000, Mr. Currie also became Vice Chairman of the Board.

Michael B. Glenn has been employed by us since 1974. In June of 1989, Mr. Glenn was elected Senior Vice President of our Southwest Operations, and on December 1, 1997, became President of Universal Forest Products Western Division, Inc. Effective January 1, 2000, Mr. Glenn was promoted to President and Chief Operating Officer.

C. Scott Greene joined us in February of 1991. In November of 1996 he became General Manager of Operations for our Florida Region, and in January of 1999 became Vice President of Marketing for Universal Forest Products, Inc. During early 2000, Mr. Greene became President of Universal Forest Products Eastern Division, Inc.

Robert K. Hill has been with us since 1986. In March of 1993, Mr. Hill was elected Senior Vice President of our Far West Operations. On December 1, 1997, Mr. Hill became the Executive Vice President of Operations of Universal Forest Products Western Division, Inc., and on January 1, 2000, became President of that Division.

Donald L. James joined us in March of 1998, and in June of that year became Director of National Sales, Site-Built Construction. Mr. James became the General Manager of Site-Built Operations for Universal Forest Products Shoffner LLC on January 1, 2001, became Vice President Site-Built,

Universal Forest Products Eastern Division, Inc. on January 1, 2002, and became Executive Vice President Site-Built Universal Forest Products Eastern Division, Inc. on January 1, 2003.

Robert D. Coleman, has been an employee since 1979. Mr. Coleman was promoted to Senior Vice President of our Midwest Operations in September 1993. On December 1, 1997, Mr. Coleman became the Executive Vice President of Manufacturing of the Universal Forest Products Eastern Division, Inc. On January 1, 1999, Mr. Coleman was named the Executive Vice President of Manufacturing.

Matthew J. Missad has been employed since 1985. Mr. Missad has served as General Counsel and Secretary since December 1, 1987, and Vice President Corporate Compliance since August 1989. In February 1996, Mr. Missad was promoted to Executive Vice President.

Michael R. Cole, CPA, CMA, joined us in November of 1993. In January of 1997, Mr. Cole was promoted to Director of Finance, and on January 1, 2000 was made Vice President of Finance. On July 19, 2000, Mr. Cole became Chief Financial Officer.

PART II

The following information items in this Part II, which are contained in the 2003 Annual Report, are specifically incorporated by reference into this Form 10-K Report. These portions of the 2003 Annual Report, that are specifically incorporated by reference, are filed as Exhibit 13 with this Form 10-K Report.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

The information required by this Item is incorporated by reference from the 2003 Annual Report under the caption "Price Range of Common Stock and Dividends."

Sales of equity securities in the fourth quarter not registered under the Securities Act:

	Date of Sale	Class of Stock	Number of Shares	Purchasers	Consideration Exchanged
Stock Gift Program	Various	Common	368	Eligible persons	None

ITEM 6. SELECTED FINANCIAL DATA.

The information required by this Item is incorporated by reference from the 2003 Annual Report under the caption "Selected Financial Data."

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The information required by this Item is incorporated by reference from the 2003 Annual Report under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations."

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are exposed to market risks related to fluctuations in interest rates on our variable rate debt, which consists of a revolving credit facility and industrial development revenue bonds. We do not currently use interest rate swaps, futures contracts or options on futures, or other types of derivative financial instruments to mitigate this risk.

For fixed rate debt, changes in interest rates generally affect the fair market value, but not earnings or cash flows. Conversely, for variable rate debt, changes in interest rates generally do not influence fair market value, but do affect future earnings and cash flows. We do not have an obligation to prepay fixed rate debt prior to maturity, and as a result, interest rate risk and changes in fair market value should not have a significant impact on such debt until we would be required to refinance it.

On December 27, 2003, the estimated fair value of our long-term debt, including the current portion, was \$215.2 million, which was \$3.7 million greater than the carrying value. The estimated fair value is based on rates anticipated to be available to us for debt with similar terms and maturities. The estimated fair value of notes payable included in current liabilities and the revolving credit facility approximated the carrying values.

Expected cash flows over the next five years related to debt instruments are as follows:

	2004	2005	2006	2007	2008	Thereafter	Total
(\$US equivalents, in thousands) Long-term Debt: Fixed Rate (\$US)	\$5 <i>,</i> 714	\$21,500			\$78,500	\$55,000	\$160 <i>,</i> 714
Average interest rate	7.15%	6.69%			6.98%	6.02%	,
Variable Rate (\$US) Average interest rate(1)	\$2,423 2.20%	\$27,600	\$542	\$499	\$ 2,479	\$18,929	\$52,472

(1)Average of rates at December 27, 2003.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The information required by this Item is incorporated by reference from the 2003 Annual Report under the following captions:

"Report of Independent Auditors" "Report of Independent Public Accountants" "Consolidated Balance Sheets" "Consolidated Statements of Earnings" "Consolidated Statements of Shareholders' Equity"

"Consolidated Statements of Cash Flows" "Notes to Consolidated Financial Statements"

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Universal Forest Products, Inc. determined, for itself and on behalf of our subsidiaries, to dismiss our independent auditors, Arthur Andersen LLP ("Arthur Andersen"), and to engage the services of Ernst & Young LLP ("Ernst & Young") as our new independent auditors. The change in auditors was approved by our Audit Committee and Board of Directors and was effective as of May 20, 2002. As a result, Ernst & Young audited our consolidated financial statements and our subsidiaries for the fiscal year ended December 28, 2002.

Arthur Andersen's reports on our consolidated financial statements for the fiscal year ended December 29, 2001 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. During the fiscal year ended December 29, 2001 and through May 20, 2002 (the Relevant Period), (1) there were no disagreements with Arthur Andersen on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure which, if not resolved to Arthur Andersen's satisfaction, would have caused Arthur Andersen to make reference to the subject matter of the disagreement(s) in connection with its reports on our consolidated financial statements for such year; and (2) there were no reportable events as described in Item 304(a)(1)(v) (Reportable Events) of the Commission's Regulation S-K.

During the Relevant Period, neither we nor anyone acting on our behalf consulted with Ernst & Young regarding (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, or (ii) any matters or reportable events as set forth in Items 304(a)(1)(iv) and (v), respectively, of Regulation S-K.

We have not been able to obtain, after reasonable efforts, the re-issued reports or consent of Arthur Andersen related to the 2001 consolidated financial statements and financial statement schedule. Therefore, we have included a copy of their previously issued report.

ITEM 9A. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures. With the participation of management, our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a - 14c and 15d - 14c) as of the year ended December 27, 2003 (the "Evaluation Date"), have concluded that, as of such date, our disclosure controls and procedures were adequate and effective to ensure that material information relating to us and our consolidated subsidiaries would be made known to them in connection with our filing of this Form 10-K.

(b) Changes in Internal Controls. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the Evaluation Date through the date of this filing of Form 10-K, nor were there any significant deficiencies or material weaknesses in our internal controls that would require corrective actions.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

Information relating to executive officers is included in this report in the last Section of Part I under the caption "Additional Item: Executive Officers of the Registrant." Information relating to directors and compliance with Section 16(a) of the Securities and Exchange Act of 1934 is incorporated by reference from our definitive Proxy Statement for the year ended December 27, 2003 for the 2004 Annual Meeting of Shareholders, as filed with the Commission ("2004 Proxy Statement"), under the captions "Election of Directors," "Corporate Governance and Board Matters," and "Section 16(a) Beneficial Ownership Reporting Compliance."

ITEM 11. EXECUTIVE COMPENSATION.

Information relating to executive compensation is incorporated by reference from the 2004 Proxy Statement under the caption "Executive Compensation."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

Information relating to security ownership of certain beneficial owners and management is incorporated by reference from our 2004 Proxy Statement under the captions "Ownership of Common Stock" and "Securities Ownership of Management."

Information relating to securities authorized for issuance under equity compensation plans as of December 27, 2003, is as follows:

	Number of shares to be issued upon exercise of outstanding options	Weighted average exercise price of outstanding options	Number of shares remaining available for future issuance under equity compensation plans [excluding shares reflected in column (a)](1)
	(a)	(b)	(c)
Equity compensation plans approved by security holders	1,995,516	\$16.83	874,200
Equity compensation plans not approved by security holders	none		

(1) Annual increases will be added on the date of the annual meeting of shareholders, equal to the lesser of (i) 200,000 shares; (ii) 1% of the sum of (1) the outstanding shares, plus (2) the number of shares subject to outstanding options issued under our option plans; or (iii) an amount determined by the Board of Directors.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

Information relating to certain relationships and related transactions is incorporated by reference from the 2004 Proxy Statement under the captions "Election of Directors" and "Related Party Transactions."

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Information relating to the types of services rendered by our Independent Auditors and the fees paid for these services is incorporated by reference from our 2004 Proxy Statement under the caption "Independent Public Accountants."

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K.

(a) 1. Financial Statements. The following Report of Independent Auditors, Report of Independent Public Accountants, and Consolidated Financial Statements are incorporated by reference, under Item 8 of this report, from the 2003 Annual Report:

Report of Independent Auditors - Ernst & Young LLP
Report of Independent Public Accountants - Arthur Andersen LLP
Consolidated Balance Sheets as of December 27, 2003 and December 28, 2002
Consolidated Statements of Earnings for the Years Ended December 27, 2003, December 28, 2002 and December 29, 2001
Consolidated Statements of Shareholders' Equity for the Years Ended December 27, 2003, December 28, 2002 and December 29, 2001
Consolidated Statements of Cash Flows for the Years Ended December 27, 2003, December 28, 2002 and December 29, 2001
Notes to Consolidated Financial Statements

2. Financial Statement Schedules. All schedules required by this Form 10-K Report have been omitted because they were inapplicable, included in the Consolidated Financial Statements or Notes to Consolidated Financial Statements, or otherwise not required under instructions contained in Regulation S-X.

3. Exhibits. Reference is made to the Exhibit Index which is included in this Form 10-K Report.

(b) None.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities and Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Dated: March 11, 2004

UNIVERSAL FOREST PRODUCTS, INC.

By: /s/ William G. Currie WILLIAM G. CURRIE, VICE CHAIRMAN OF THE BOARD AND CHIEF EXECUTIVE OFFICER

and

/s/ Michael R. Cole MICHAEL R. COLE, CHIEF FINANCIAL OFFICER AND TREASURER

Pursuant to the requirements of the Securities Exchange Act of 1934, this report has been signed below on this 11th day of March, 2004, by the following persons on behalf of us and in the capacities indicated.

Each Director whose signature appears below hereby appoints Matthew J. Missad and Michael R. Cole, and each of them individually, as his attorney-in-fact to sign in his name and on his behalf as a Director, and to file with the Commission any and all amendments to this report on Form 10-K to the same extent and with the same effect as if done personally.

Exhibit

- Description 3 Articles of Incorporation and Bylaws.
 - Registrant's Articles of Incorporation were filed as Exhibit (a) 3(a) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
 - Registrant's Bylaws were filed as Exhibit 3(b) to a (b) Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- Instruments Defining the Rights of Security Holders. 4
 - Specimen form of Stock Certificate for Common Stock was filed (a) as Exhibit 4(a) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
 - (b)(3) Series A, Senior Unsecured Note Agreement dated May 5, 1994, was filed as Exhibit 4(b)(3) to a Form 10-Q Quarterly Report for the quarter period ended March 26, 1994, and the same is incorporated herein by reference.
 - First Amendment to Note Agreement dated November 13, 1998, (b)(4) relating to Series A, Senior Unsecured Note Agreement dated May 5, 1994, was filed as Exhibit 4(b)(4) to a Form 10-K Annual Report for the fiscal year ended December 26, 1998.
- 10 Material Contracts.
 - Redemption Agreement with Peter F. Secchia, dated January 2, 2002, was filed as Exhibit 10(a)(2) to a Form 10-K, Annual Report for the year ended December 29, 2001 and the same is (a)(2)incorporated herein by reference.
 - *(a)(3) Consulting Agreement with Peter F. Secchia, dated December 31, 2002, and Assignment dated January 1, 2003 was filed as Exhibit 10(a)(3) to a Form 10-K, Annual Report for the year ended December 28, 2002 and the same is incorporated herein by reference.
 - *(a)(4) Nondisclosure and Non-Compete Agreement with Peter F. Secchia, dated December 31, 2002 was filed as Exhibit 10(a)(4) to a Form 10-K, Annual Report for the year ended December 28, 2002 and the same is incorporated herein by reference.

F-1

- *(a)(5) Conditional Share Grant Agreement with William G. Currie dated April 17, 2002 was filed as Exhibit 10(a)(5) to a Form 10-K, Annual Report for the year ended December 28, 2002 and the same is incorporated herein by reference.
- (b) Form of Indemnity Agreement entered into between the Registrant and each of its directors was filed as Exhibit 10(b) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- (c)(2) Lease guarantee, dated March 10, 1978, given by Registrant on behalf of Universal Restaurants, Inc. to Jackson Properties was filed as Exhibit 10(c)(2) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- *(e)(1) Form of Executive Stock Option Agreement was filed as Exhibit 10(e)(1) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- *(e)(2) Form of Officers' Stock Option Agreement was filed as Exhibit 10(e)(2) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- *(f) Salaried Employee Bonus Plan was filed as Exhibit 10(f) to a Registration Statement on Form S-1 (No. 33-69474) and the same is incorporated herein by reference.
- (i)(1) Revolving Credit Agreement dated November 13, 1998 was filed as Exhibit 10(i)(1) to a Form 10-K Annual Report for the year ended December 26, 1998, and the same is incorporated herein by reference.
- (i)(2) Series 2002-A, Revolving Credit Agreement dated November 25, 2002 was filed as Exhibit 10(i)(2) to a Form 10-K Annual Report for the year ended December 28, 2002.
- (i)(3) First Amendment dated September 18, 2003 relating to Series 2002-A, Revolving Credit Agreement dated November 25, 2002 was filed as Exhibit 10(i)(3) to a Form 10-Q Quarterly Report for the quarter ended September 27, 2003.
- (j)(1) Series 1998-A, Senior Note Agreement dated December 21, 1998 was filed as Exhibit 10(j)(1) to a Form 10-K Annual Report for the year ended December 26, 1998, and the same is incorporated herein by reference.
- (j)(2) Series 2002-A, Senior Note Agreement dated December 18, 2002 was filed as Exhibit 10(j)(2) to a Form 10-K Annual Report for the year ended December 28, 2002.

E-2

- (k)(1) Program for Accounts Receivable Transfer ("PARTS") Agreement dated September 22, 2003 was filed as Exhibit 10(k)(1) to a Form 10-Q Quarterly Report for the quarter ended September 27, 2003.
- (k)(2) Deposit Account Control Agreement dated September 22, 2003, completed pursuant to the PARTS Agreement, was filed as Exhibit 10(k)(2) to a Form 10-Q, Quarterly Report for the quarter ended September 27, 2003.
- 13 Selected portions of the Company's Annual Report to Shareholders for the fiscal year ended December 27, 2003.
- 16 Letter from Arthur Andersen LLP regarding change in certifying accountant is incorporated by reference from Exhibit 16 of Registrant's current report on Form 8-K dated May 21, 2002.
- 21 Subsidiaries of the Registrant.
- 23 Consents of Experts and Counsel.
 - (a) Consent of Ernst & Young LLP.
 - (b) Information Concerning Consent of Arthur Andersen LLP.
- 31 Certifications.
 - (a) Certificate of the Chief Executive Officer of Universal Forest Products, Inc., pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
 - (b) Certificate of the Chief Financial Officer of Universal Forest Products, Inc., pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
- 32 Certifications.
 - (a) Certificate of the Chief Executive Officer of Universal Forest Products, Inc., pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
 - (b) Certificate of the Chief Financial Officer of Universal Forest Products, Inc., pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).

(1) In 2001, we reclassified customer rebate expense from cost of goods sold to include it in net sales. Prior year amounts have been reclassified.

(2) Includes \$36 million classified as temporary shareholders' equity in 2001 associated with a share redemption we completed in January 2002.

(3) In 2002, we adopted SFAS 142 and as a result we no longer recognize amortization expense associated with goodwill.

(4) Current assets less current liabilities.

(5) Net earnings divided by beginning shareholders' equity (including temporary shareholder's equity).

We advise you to read the issues discussed in Management's Discussion and Analysis in conjunction with our Consolidated Financial Statements and the Notes to the Consolidated Financial Statements included in this Annual Report for the year ended December 27, 2003. We are pleased to present this overview of 2003, which is discussed in three sections: the challenges we faced, the accomplishments we made, and our view of the future.

OVERVIEW

In 2003, we faced several challenges:

- The manufactured housing industry experienced a 23% decline in production as a result of the tight credit conditions and repossessions which hampered the industry since the end of 1999.
- - Inclement weather across the United States in the first quarter adversely impacted our operating efficiencies during that period.
- Difficult economic conditions, such as rising unemployment and declining consumer sentiment and manufacturing activity, impacted all of our markets for the first half of the year. The one bright spot, low interest rates, specifically attractive mortgage rates, helped housing starts and multi-family construction remain at historically high levels.
- Our wood preservation plants, along with the rest of the industry, converted from CCA to a new preservative in the third and fourth quarters of 2003, which brought several unique challenges. For example, each of our plants experienced production downtime in order to clean its cylinders and remove CCA; we had to work closely with our chemical suppliers to ensure we were able to achieve desired quality and efficiency standards; and we had to coordinate with our customers to ensure supply requirements were achieved. Each of these challenges required extensive management time, focus and cost.

We are pleased to say that our people managed through these challenges and achieved another year of strong results. We remained focused on our goals and delivered the following accomplishments:

- Our sales to the industrial market increased 20% for the year as we continue to obtain new accounts and develop packaging products that meet our customers' needs.
- We continue to increase our shipments to modular home producers, and developed several new products for manufacturing housing producers which will help them reduce costs.
- - We acquired interests in two framing operations and began a joint venture with another. Some of our site-built construction customers prefer supply arrangements which allow them to purchase a complete package of components and framing services. Therefore, we expect to continue to investigate opportunities which enable us to supply complete packages of components and services to them.

- We expanded the production capacity of the EverX(R) (composite decking) manufacturing plant we acquired in November 2002. While we believe wood decking will continue to hold a dominant share of the market in the future, we also believe that composites will continue to be an important component of this market. The EverX(R) plant provides us with the opportunity to realize a portion of that growth.
- Following a year in which we completed several strategic acquisitions and large repurchases of our stock, we focused on our balance sheet, assimilating new operations and reducing debt levels.
- We sold several idle plants and non-operating subsidiaries in 2003, and in January 2004 we sold the shares we had invested in Nascor Inc., one of our subsidiaries, as we continue to stay focused on investing our resources in areas that help us best achieve our strategic goals.

As we look ahead, we see a variety of opportunities and trends that could benefit our position in each of our markets. We also see some familiar challenges that, historically, we have used as springboards for growth.

- The supply network of the industrial and site-built construction markets we serve are very fragmented, and customers continue to consolidate, particularly in the site-built construction market. Our history includes successfully serving consolidating markets such as the manufactured housing and do-it-yourself/retail ("DIY/retail") industries. As we grow our sales to the site-built construction and industrial markets this will help us achieve more balance and diversification which is the foundation upon which our strategy is built.
- In the short term, our wood preservation facilities will stay focused on achieving the high quality and efficiency standards we must hit to maintain our profitability and customer satisfaction. Historically, we have held a leadership position in these areas.
- In the long-term, there is some uncertainty whether demand for wood treated with the new preservative, ACQ, which is expected to increase consumer costs by 10% to 15%, will be less than it was for wood treated with CCA. We continue to believe that demand will not be materially changed.
- - Providing framing services is a new business for us and as a result we expect to experience a learning curve. However, this area also presents exciting opportunities to create a competitive advantage and add value to our customer relationships.
- Recent signs suggest that the manufactured housing industry may have reached a bottom and that a slight recovery is possible. For example, in early 2003, Berkshire Hathaway acquired one of the industry's largest producers - Clayton Homes, Inc. - which in turn recently agreed to purchase Oakwood Homes, Inc. Oakwood is presently operating under Chapter 11 of the U.S. Bankruptcy Code. In addition, several lenders recently announced that they will begin providing financing to the industry.

In summary, we remain optimistic about the future of our business, markets and strategies, and our employee-owners remain focused on adding value for our customers, executing our strategies and meeting our goals.

RISK FACTORS

WE ARE SUBJECT TO FLUCTUATIONS IN THE PRICE OF LUMBER. We experience significant fluctuations in the cost of commodity lumber products from primary producers (the "Lumber Market"). A variety of factors over which we have no control, including government regulations, environmental regulations, weather conditions, economic conditions and natural disasters, impact the cost of lumber products and our selling prices. While we attempt to minimize our risk from severe price fluctuations, substantial, prolonged trends in lumber prices can negatively affect our sales volume, our gross margins and our profitability. We anticipate that these fluctuations will continue in the future.

OUR GROWTH MAY BE LIMITED BY THE MARKETS WE SERVE. Our sales growth is dependent, in part, upon the growth of the markets we serve. If our markets do not achieve anticipated growth, or if we fail to maintain our market share, financial results could be impaired.

The manufactured housing industry still suffers from difficult market conditions, including repossessions and tight credit conditions. Significant lenders who previously provided financing to consumers of these products and industry participants have either restricted credit or exited the market. While new lenders have announced intentions to enter this market, a continued shortage of financing to this industry could adversely affect our operating results.

Our ability to achieve growth in sales and margins to the site-built construction market is somewhat dependent on housing starts. If housing starts decline significantly, our financial results could be negatively impacted.

We are witnessing consolidation by our customers in each of the markets we serve. These consolidations will result in a larger portion of our sales being made to some customers and may limit the customer base we are able to serve.

A SIGNIFICANT PORTION OF OUR SALES ARE CONCENTRATED WITH ONE CUSTOMER. Our sales to The Home Depot comprised 30% of our total sales in 2003 and 2002.

OUR GROWTH MAY BE LIMITED BY OUR ABILITY TO MAKE SUCCESSFUL ACQUISITIONS. A key component of our growth strategy is to complete business combinations. Business combinations involve inherent risks, including assimilation and successfully managing growth. While we conduct extensive due diligence and have taken steps to ensure successful assimilation, factors beyond our control could influence the results of these acquisitions.

WE MAY BE ADVERSELY AFFECTED BY THE IMPACT OF ENVIRONMENTAL AND SAFETY REGULATIONS. We are subject to the requirements of federal, state and local environmental and occupational health and safety laws and regulations. There can be no assurance that we are at all times in complete compliance with all of these requirements. We have made and will continue to make capital and

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

other expenditures to comply with environmental regulations. If additional laws and regulations are enacted in the future, which restrict our ability to manufacture and market our products, including our treated lumber products, it could adversely affect our sales and profits. If existing laws are interpreted differently, it could also increase the financial cost to us. Several states have proposed legislation to limit the uses of CCA treated lumber. (See Notes to Consolidated Financial Statements, Footnote N "Commitments, Contingencies and Guarantees.")

SEASONALITY AND WEATHER CONDITIONS COULD ADVERSELY AFFECT US. Some aspects of our business are seasonal in nature and results of operations vary from quarter to quarter. Our treated lumber and outdoor specialty products, such as fencing, decking and lattice, experience the greatest seasonal effects. Sales of treated lumber, primarily consisting of Southern Yellow Pine ("SYP"), also experience the greatest Lumber Market risk (see "Historical Lumber Prices"). Treated lumber sales are generally at their highest levels between April and August. This sales peak, combined with capacity constraints in the wood treatment process, requires us to build our inventory of treated lumber throughout the winter and spring. (This also has an impact on our receivables balances, which tend to be significantly higher at the end of the second and third quarters.) Because sales prices of treated lumber products may be indexed to the Lumber Market at the time they are shipped, our profits can be negatively affected by prolonged declines in the Lumber Market during our primary selling season. To mitigate this risk, consignment inventory programs are negotiated with certain vendors that are intended to decrease our exposure to the Lumber Market by correlating the purchase price of the material with the related sell price to the customer. These programs include those materials which are most susceptible to adverse changes in the Lumber Market. Vendor programs also allow us to carry a lower investment in inventories.

The majority of our products are used or installed in outdoor construction activities; therefore, short-term sales volume, our gross margins and our profits can be negatively affected by adverse weather conditions. In addition, adverse weather conditions can negatively impact our productivity and costs per unit.

WE CONVERTED TO A NEW PRESERVATIVE TO TREAT OUR PRODUCTS IN THE THIRD AND FOURTH QUARTERS OF 2003. The manufacturers of CCA preservative voluntarily discontinued the registration of CCA for certain residential applications as of December 31, 2003. As a result, 21 of our 24 wood preservation facilities were converted to an alternate preservative, ACQ, in the third and fourth quarters of 2003. The remaining facilities were converted to either ACQ or borates during January 2004. On December 27, 2003, we had approximately \$5.6 million of CCA-treated product in inventory, which we expect to sell at reasonable margins during the first quarter of 2004. The cost of ACQ is more than four times higher than the cost of CCA. We coordinated with our chemical suppliers and conducted extensive training with our plants to achieve the quality and chemical efficiency standards necessary to maintain profitability and customer satisfaction. In addition, we estimate the new preservative will increase the cost and sales price of our treated products by approximately 10% to

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

15%. While we believe treated products will be reasonably priced relative to alternative products such as composites or vinyl, consumer acceptance may be impacted which would in turn affect our future operating results. (See Note N, "Commitments, Contingencies and Guarantees.")

When analyzing this report to assess our future performance, please recognize the potential impact of the various factors set forth above.

HISTORICAL LUMBER PRICES

The following table presents the Random Lengths framing lumber composite price for the years ended December 27, 2003, December 28, 2002 and December 29, 2001.

	Random Lengths Composite Average \$/MBF					osite
	2	003	2	2002	2	2001

IMPACT OF THE LUMBER MARKET ON OUR OPERATING RESULTS

We generally price our products to pass lumber costs through to our customers so that our profitability is based on the value-added manufacturing, distribution, engineering and other services we provide. As a result, our sales levels (and working capital requirements) are impacted by the lumber costs of our products.

Our gross margins are impacted by both (1) the relative level of the Lumber Market (i.e. whether prices are higher or lower from comparative periods), and (2) the trend in the market price of lumber (i.e. whether the price of lumber is increasing or decreasing within a period or from period to period). Moreover, as explained below, our products are priced differently. Some of our products have fixed selling prices, while the selling prices of other products are indexed to the reported Lumber Market with a fixed dollar adder to cover conversion costs and profits. Consequently, the level and trend of the Lumber Market impact our products differently.

Below is a general description of the primary ways in which our products are priced.

 Products with fixed selling prices. These products include value-added products such as decking and fencing sold to DIY/retail customers, as well as trusses, wall panels and other components

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

sold to the site-built construction market. Prices for these products are generally fixed at the time of the sales quotation for a specified period of time or are based upon a specific quantity. In order to maintain margins and reduce any exposure to adverse trends in the price of component lumber products, we attempt to lock in costs for these sales commitments with our suppliers. Also, the time periods and quantity limitations generally allow us to reprice our products for changes in lumber costs from our suppliers.

- Products with selling prices indexed to the reported Lumber Market with a fixed dollar "adder" to cover conversion costs and profits. These products include treated lumber, remanufactured lumber and trusses sold to the manufactured housing industry. For these products, we estimate the customers' needs and carry anticipated levels of inventory. Because lumber costs are incurred in advance of final sale prices, subsequent increases or decreases in the market price of lumber impact our gross margins. For these products, our margins are exposed to changes in the trend of lumber prices.

Changes in the trend of lumber prices have their greatest impact on the following products:

- Products that have significant inventory levels with low turnover rates, such as treated lumber, which comprises almost twenty-five percent of our total sales. In other words, the longer the period of time that products remain in inventory, the greater the exposure to changes in the price of lumber. This exposure is less significant with remanufactured lumber, trusses sold to the manufactured housing market and other similar products, due to the higher rate of inventory turnover. We attempt to mitigate this risk through certain vendor supply programs. (See "Risk Factors -Seasonality and weather conditions could adversely affect us" section.)
- Products with fixed selling prices sold under long-term supply arrangements, particularly those involving multi-family construction projects. We attempt to mitigate this risk through our purchasing practices.

In addition to the impact of the Lumber Market trends on gross margins, changes in the level of the market cause fluctuations in gross margins when comparing operating results from period to period. This is explained in the following example, which assumes the price of lumber has increased from period one to period two, with no changes in the trend within each period.

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

	Period 1		Per	iod 2
Lumber cost Conversion cost = Product cost Adder = Sell price	Ŧ	300 50 350 50 400	\$	400 50 450 50 500
Gross margin		12.5%		10.0%

As is apparent from the preceding example, the level of lumber prices does not impact our overall profits, but does impact our margins. Gross margins are negatively impacted during periods of high lumber prices; conversely, we experience margin improvement when lumber prices are relatively low.

BUSINESS COMBINATIONS AND ASSET PURCHASES

We completed the following business combinations in fiscal 2003, 2002 and 2001 (see Note B to the consolidated financial statements for further details). These business combinations were accounted for using the purchase method.

Company Name	Acquisition Date	Business Description
D&L Framing LLC	August 28, 2003	Framing operation for multi-family construction located in Las Vegas, NV.
Norpac Construction LLC	June 3, 2003	Concrete framer for residential construction located in Las Vegas, NV.
Quality Wood Treating Co., Inc. ("Quality")	November 4, 2002 August 26, 2003	One facility in Prairie du Chien, WI which produces EverX(R)composite decking. We also entered into an exclusive treating services agreement with Quality. On August 26, 2003, we canceled the treating services agreement and purchased two treating facilities in Lansing, MI and Janesville, WI and our subsidiary agreed to lease the real estate of a third treating facility in White Bear Lake, MN.
J.S. Building Products, Inc.	September 9, 2002	One facility in Modesto, CA, which manufactures engineered roof trusses for the site-built construction market.
Inno-Tech Plastics, Inc. ("Inno-Tech") - Entered into exclusive licensing agreement and acquired certain assets.	April 10, 2002	One facility in Springfield, IL which manufactures "wood alternative" products.

Pinelli-Universal S. de R.L. de C.V. ("Pinelli") - Purchased additional 5% interest.	January 15, 2002	One facility in Durango, Durango, Mexico which manufactures molding and millwork products.
P&R Truss Company, Inc. and P&R Truss-Sidney, Inc. (collectively "P&R").	October 15, 2001	Facilities in Auburn, Chaffee, Hudson and Sidney, New York, which serve the site-built construction market.
Superior Truss Division of Banks Corporation ("Superior").	June 1, 2001	One facility in Syracuse, Indiana and one in Minneota, Minnesota which serve the site-built construction market.
Sunbelt Wood Components ("Sunbelt").	April 3, 2001	Facilities in New London, North Carolina; Haleyville, Alabama; Ashburn, Georgia; and Glendale, Arizona which serve the manufactured housing industry.
D&R Framing Contractors ("D&R") Purchased 50% of the assets.	February 28, 2001	One facility in Englewood, Colorado. Framer serving the site-built construction market.

RESULTS OF OPERATIONS

The following table presents, for the periods indicated, the components of our Consolidated Statements of Earnings as a percentage of net sales.

	Years Ended		
	December 27,	December 28,	December 29,

NET SALES

We engineer, manufacture, treat, distribute and install lumber, composite, plastic and other building products for the DIY/retail, site-built construction, manufactured housing and industrial markets. Our strategic sales objectives include:

- Diversifying our end market sales mix by increasing sales of specialty wood packaging to industrial users and engineered wood products and framing services to the site-built construction market. Engineered wood products include roof trusses, wall panels and floor systems.
- Increasing sales of "value-added" products. Value-added product sales consist of fencing, decking, lattice and other specialty products sold to the DIY/retail market, specialty wood packaging, engineered wood products and "wood alternative" products. Wood alternative products consist primarily of composite wood and plastics. One of our goals is to achieve a ratio of value-added sales to total sales of at least 50%. Although we consider the treatment of dimensional lumber with certain chemical preservatives a value-added process, treated lumber is not presently included in the value-added sales totals.
- - Maximizing profitable top-line sales growth.

The following table presents, for the periods indicated, our net sales (in thousands) and percentage change in net sales by market classification.

			Years Ended		
Market Classification	December 27, 2003	% Change	December 28, 2002	% Change	December 29, 2001
DIY/retail Site-Built Construction Manufactured Housing Industrial and Other	\$ 900,188 400,055 285,040 313,547	18.5 22.4 (2.7) 20.4	\$ 759,439 326,962 293,070 260,428	2.9 5.9 4.6 28.2	\$ 738,218 308,826 280,208 203,101
Total	\$ 1,898,830 =======		\$ 1,639,899 ======		\$ 1,530,353

Note: During 2003, we reviewed our customer lists and made certain reclassifications. Historical information has been restated to reflect these reclassifications.

The following table estimates, for the periods indicated, our percentage change in net sales which were attributable to changes in overall selling prices versus changes in units shipped.

	% Change			
	in Sales	in Selling Prices	in Units	
2003 versus 2002	+16%	+3%	+13%	
2002 versus 2001	+7%	- 2%	+9%	
2001 versus 2000	+10%	- 3%	+13%	

We estimate that our 2003 unit sales increased by 7% as a result of business combinations, a new joint venture framing operation, and an exclusive treating services agreement completed in the third quarter of 2002. We estimate that our unit sales out of existing facilities increased by 6% in 2003. The increase in selling prices was attributable to a slight increase in the Lumber Market.

The increase in unit sales in 2002 was due to the consolidation of Pinelli, business combinations we completed, and organic growth achieved by our existing plants totaling approximately 3%. The decrease in overall selling prices was attributable to the Lumber Market.

Changes in sales by market are discussed below.

DIY/RETAIL:

We have developed strong relationships with national retail customers due to our ability to provide quality products and a high level of service at competitive prices. The most significant is our longstanding relationship with The Home Depot, which comprised 30% of our total sales and 63% of our DIY/retail sales in 2003.

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

Net sales to the DIY/retail market increased 19% in 2003 compared to 2002, primarily due to acquiring a plant that manufactures composite decking (EverX(R)) and entering into an exclusive treating services agreement with Quality. Our organic sales growth out of existing facilities was approximately 11% due to new opportunities with an existing customer and an increase in the number of our customers' stores. In addition, we began providing installation service for some of our products.

Net sales to the DIY/retail market increased 3% in 2002 compared to 2001, primarily due to the acquisitions of P&R, Quality and Inno-Tech (see Business Combinations). Organic growth out of our existing operations was offset by lower overall selling prices due to the Lumber Market.

Site-Built Construction:

Net sales to the site-built construction market increased 22% in 2003 compared to 2002 primarily due to acquisitions completed after the third quarter of 2002, a new joint venture framing operation, and organic sales growth spread over several existing plants totaling approximately 14%. The ability of some of our plants to offer framing services in addition to engineered component sales allowed these plants to capture additional market share from existing customers, which contributed to our organic sales growth.

Net sales to the site-built construction market increased 6% in 2002 compared to 2001 primarily due to the acquisition of Superior (see Business Combinations). Organic growth achieved out of existing operations was substantially offset by lower selling prices due to the Lumber Market.

Manufactured Housing:

Net sales to the manufactured housing market decreased 3% in 2003 compared to 2002 primarily due to a 23% decline in industry shipments. We improved our market share this year as a result of new product initiatives and continuing to increase our sales to modular home producers.

Net sales to the manufactured housing market increased 5% in 2002 compared to 2001 despite a 13% decline in industry shipments. We improved our market share by utilizing certain assets acquired from Sunbelt (see Business Combinations) for the full year and increasing our sales to modular home producers.

Industrial and Other:

Net sales to industrial and other increased 20% in 2003 compared to 2002 due to unit increases out of several existing facilities as a result of executing our internal growth strategy. Additional sales personnel, training and equipment has been dedicated to this market.

Net sales to industrial and other increased 28% in 2002 compared to 2001 due to the consolidation of Pinelli, combined with 15% unit sales growth out of our existing plants. In January 2002, we acquired an additional 5% ownership interest in Pinelli. As a result of this transaction, we obtained additional rights of control and began consolidating Pinelli in the 2002 consolidated financial statements.

Value-Added and Commodity-Based Sales:

The following table presents, for the periods indicated, our percentage of value-added and commodity-based sales to total sales.

	Value-Added	Commodity-Based	
2003	51.1%	48.9%	
2002	50.8%	49.2%	
2001	48.4%	51.6%	

The increase in our ratio of value-added sales to total sales in 2003 compared to 2002 was primarily due to a 17% increase in value-added sales while commodity-based sales increased by 15%. Value-added sales increased primarily due to increased unit sales of trusses sold to the site-built market, new framing operations, EverX (R) composite decking and specialty products supplied to the DIY/retail market. Commodity-based sales increased due to increased unit sales of plywood and the exclusive treating services agreement completed in the third quarter of 2002.

The increase in our ratio of value-added sales to total sales in 2002 compared to 2001 was primarily due to a 12% increase in value-added sales while commodity-based sales remained relatively flat. Value-added sales increased primarily due to increased unit sales of engineered wood products, the consolidation of Pinelli which manufactures molding, millwork, industrial products and other specialty products supplied to the DIY/retail market.

COST OF GOODS SOLD AND GROSS PROFIT

Gross profit as a percentage of net sales decreased in 2003 compared to 2002. Generally, a higher Lumber Market results in a decrease in our gross margin. (See "Impact of the Lumber Market on our Operating Results.") We attempt to price certain products to earn a fixed profit per unit, so, in a period of higher lumber prices, our gross margin will decline. Therefore, a more meaningful analysis of profitability is a comparison of the change in gross profit dollars compared to our change in units shipped. Our gross profit dollars increased by almost 12%, while units shipped increased by 13%. We believe this slight shortfall in gross profit dollars was due in part to operating inefficiencies resulting from inclement first quarter weather and the conversion to ACO.

Gross profit as a percentage of net sales increased in 2002 compared to 2001. This increase was primarily due to an increase in sales of value-added products, offset in part by a dramatic decline in lumber prices during our peak selling season which adversely impacted our gross margins on products not covered under managed inventory programs, inventory programs maintained with certain vendors. As previously discussed, a declining trend in lumber prices adversely impacts margins on products whose selling prices are indexed to the Lumber Market.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses ("SG&A") as a percentage of net sales decreased to 9.4% in 2003 compared to 9.7% in 2002, primarily due to the impact of the Lumber Market on our selling prices. Our 12.4% increase in SG&A for the year was slightly lower than our 13% increase in units shipped. The dollar increase in SG&A was primarily due to acquisitions and new operations, combined with higher compensation costs resulting from greater head count to support growth in our business, an increase in health care and legal costs, and higher incentive compensation tied to growth in profits and return on investment. These increases were offset somewhat by a decline in bad debt expense as our trend of accounts receivable write-offs improved.

SG&A as a percentage of net sales increased to 9.7% in 2002 compared to 9.5% in 2001. On a pro forma basis, excluding amortization of goodwill in 2001, the percentage was 9.3%. This increase was primarily due to new acquisitions that have comparatively higher selling and design costs, combined with increases in insurance costs and incentive compensation.

Effective December 30, 2001 (the first day of our fiscal year ending December 28, 2002), we adopted SFAS No. 142, Goodwill and Other Intangible Assets ("SFAS 142"). This statement changed the accounting and reporting for goodwill and other intangible assets. Goodwill is no

longer amortized, however tests for impairment are performed annually and if a triggering event occurs.

INTEREST, NET

Net interest costs were higher in 2003 compared to 2002. The increase was due to an average debt balance that was \$13.6 million higher in 2003, combined with an increase in our average borrowing rates as a result of issuing \$55 million of long-term unsecured notes payable in December 2002. The proceeds from the note issuance were used to reduce amounts outstanding under our revolving credit facility which bears interest at a lower rate.

Net interest costs were lower in 2002 compared to 2001. Although we had a higher average debt balance as a result of increased working capital, acquisitions and the repurchase of shares from our largest shareholder, this was offset by a decrease in short-term borrowing rates on variable rate debt. The average interest rate on our primary revolving credit facility was 2.3% and 4.7% for 2002 and 2001, respectively.

GAIN ON SALE OF ASSETS

During the second quarter of 2002, we sold our corporate airplane and recognized a gain of \$1.1 million on the sale, and entered into an operating lease for a replacement airplane.

INCOME TAXES

Effective tax rates differ from statutory federal income tax rates, primarily due to provisions for state and local income taxes and permanent tax differences.

While our effective tax rate was 37.0% in 2003 and 2002 we experienced the following fluctuations between the periods:

- - Our state and local effective tax rate decreased in 2003 as a result of state income tax credits received.
- - A reduction in the earnings of certain minority owned entities we consolidate.

Our effective tax rate increased to 37.0% in 2002 from 36.1% in 2001. This increase primarily resulted from an increase in our state income tax rate in 2002 and certain tax credits recognized in the third and fourth quarters of 2001. These increases were offset somewhat by

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

the effect of no longer amortizing goodwill, which resulted in a permanent tax difference in 2001.

OFF-BALANCE SHEET TRANSACTIONS AND CONTRACTUAL OBLIGATIONS

We have no significant off-balance sheet transactions other than operating leases. The following table summarizes our contractual obligations as of December 27, 2003 (in thousands).

	Payments Due by Period				
Contractual Obligation	Less than 1 Year	1 - 3 Years	3 - 5 Years	After 5 Years	Total
Long-term debt Operating leases Capital project purchase obligations	\$ 6,411 9,931 2,755	\$49,642 .11,885	\$81,478 3,097	\$73,929 267	\$211,460 25,180 2,755
Total	\$ 19,097 ========	\$61,527 ======	\$84,575 ======	\$74,196 ======	\$239,395 =======

As of December 27, 2003, we also had \$31.4 million in outstanding letters of credit issued during the normal course of business, as required by some vendor contracts.

LIQUIDITY AND CAPITAL RESOURCES

The table below presents, for the periods indicated, a summary of our cash flow statement (in thousands):

	2003	2002	2001
Cash from operating activities	70,375	\$ 20,796	\$ 78,056
Cash from investing activities	(31,412)	(48,435)	(68,494)
Cash from financing activities	(39,067)	22,286	10,933
Net change in cash and cash equivalents	(104)	(5,353)	20,495
Cash and cash equivalents, beginning of year	17,534	22,887	2,392
Cash and cash equivalents, end of year	\$ 17,430	\$ 17,534	\$ 22,887
	========	========	=========

In general, we financed our growth in the past through a combination of operating cash flows, our revolving credit facility, industrial development bonds (when circumstances permit), and issuance of long-term notes payable at times when interest rates are favorable. In the past we have not issued equity to finance growth except in the case of a large acquisition. We manage our capital structure by attempting to maintain a targeted ratio of debt to equity and debt to operating cash flow. We

believe this is one of the many important factors to maintaining a strong credit profile, which in turn helps ensure timely access to capital when needed.

Our business is highly seasonal in nature and our investment in working capital is at its highest levels from March until August of each year in preparation for and during our primary selling season. As a result, we generally report negative or modest cash flows from operations in our first and second quarters. During these periods, we use our revolving credit facility to finance working capital requirements. In fact, at our seasonal peak we may consume up to \$100 million of our availability under the credit facility. Conversely, from September through February, our slower sales periods, our working capital levels decline resulting in substantial operating cash flows, a portion of which is used to prepay outstanding amounts under the credit facility. Our business is highly working capital-intensive, therefore, one of the keys to reporting strong returns and operating cash flows lies in careful management of receivables, inventory and accounts payable. As a result of the seasonality of our business and the temporary effects changes in the Lumber Market can have on our operating cash flows, we believe our cash cycle (days sales outstanding plus days supply of inventory less days payables outstanding) is a good indicator of how well we are managing our working capital.

Our cash cycle was 47 days (without the sale of receivables program) in 2003 and 47 days in 2002. Our days supply of inventory and accounts receivable cycle increased slightly in 2003, but was offset by an extension in our payables cycle.

Cash flows from operating activities increased by almost \$50 million in 2003 compared to 2002 for the following reasons:

- - We sold the extra inventory we carried at the end of 2002 and throughout the first quarter of 2003 resulting from opportunistic buying and poor weather.
- - We extended our payables cycle by negotiating better terms with our vendors.
- - Our accrued liabilities increased due to accrued compensation costs tied to headcount and incentives.
- During the third quarter of 2003, we implemented a new program whereby we sold certain accounts receivable for cash. The proceeds from this sale were used to reduce borrowings on our revolving credit facility. Benefits of this program include a lower net cost than our revolving credit facility, an increase in our available debt capacity, and further diversification of our funding sources. (See Notes to Consolidated Financial Statements, Footnote G, "Sale of Accounts Receivable.")

The positive factors listed above were offset somewhat by an increase in our accounts receivable as a result of strong December sales in 2003.

Cash used for investing activities declined by \$17 million in 2003 compared to 2002, as we curtailed acquisition activities in order to focus on assimilating businesses acquired in 2002 and to reduce our debt levels. Our capital expenditures totaled almost \$41 million in 2003, compared to \$31 million in 2002. In 2003, we increased our spending on expansionary projects and purchased two treating facilities and the equipment of a third facility from Quality. In addition, we were able to sell several idle facilities and an airplane in 2003 for proceeds totaling approximately \$6.2 million.

Our cash flows used in financing activities was over \$39 million in 2003 primarily as a result of repaying obligations on our revolving credit facility and notes payable. In addition, our financing activities included approximately \$2 million spent to repurchase our common stock. We have authorization from the Board of Directors to purchase an additional 1.5 million shares.

On December 27, 2003, we had \$27 million outstanding on our \$200 million revolving credit facility. The revolving credit facility supports letters of credit totaling approximately \$29 million on December 27, 2003. Financial covenants on our revolving credit facilities and senior unsecured notes include a minimum net worth requirement, a minimum interest coverage test, a minimum fixed charge coverage test and a maximum leverage ratio. The agreements also restrict the amount of additional indebtedness we may incur and the amount of assets which may be sold. We were within all our requirements at December 27, 2003.

ENVIRONMENTAL CONSIDERATIONS AND REGULATIONS

See Notes to Consolidated Financial Statements Footnote N, "Commitments, Contingencies and Guarantees."

CRITICAL ACCOUNTING POLICIES

In preparing our consolidated financial statements, we follow accounting principles generally accepted in the United States. These principles require us to make certain estimates and apply judgments that affect our financial position and results of operations. We continually review our accounting policies and financial information disclosures. Following is a summary of our more significant accounting policies that require the use of estimates and judgments in preparing the financial statements.

ACCOUNTS RECEIVABLE ALLOWANCES

We record provisions against gross revenues for estimated returns and cash discounts in the period when the related revenue is recorded. These estimates are based on factors that include, but are not limited to, historical discounts taken, analysis of credit memorandum activity and customer demand. We also evaluate the allowance for uncollectible accounts receivable and discounts based on historical collection experience and specific identification of other potential problems, including the economic climate. Actual collections can differ, requiring adjustments to the allowances.

SELF-INSURANCE RESERVES

We are significantly self-insured for general liability, automobile, workers' compensation and certain employee health benefits. We are fully self-insured for environmental liabilities. The general liability, automobile, workers' compensation and environmental liabilities are managed through a wholly-owned insurance captive; the related assets and liabilities are included in the consolidated financial statements as of December 27, 2003. Our accounting policies with respect to the reserves are as follows:

- - General liability, automobile and workers' compensation reserves are accrued based on third party actuarial valuations of the expected future liabilities.
- Health benefits are self-insured by us up to our pre-determined stop loss limits. These reserves, including incurred but not reported claims, are based on internal computations. These computations consider our historical claims experience, independent statistics and trends.
- The environmental reserve is based on known remediation activities at certain wood preservation facilities and the potential for undetected environmental matters at other sites. The reserve for known activities is based on expected future costs and is computed by in-house experts responsible for managing our monitoring and remediation activities. (See "Environmental Considerations and Regulations.")

PERCENTAGE OF COMPLETION

Earnings on construction contracts are reflected in operations by the percentage-of-completion method, measured by the relationships of actual costs incurred related to the total estimated costs. Revisions in earnings estimates on construction contracts are recorded in the accounting period in which the basis for such revisions becomes known. Projected losses on individual contracts are charged to operations in their entirety when such losses become apparent.

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

LONG-LIVED ASSETS AND GOODWILL

We evaluate long-lived assets for indicators of impairment when events or circumstances indicate that this risk may be present. Our judgments regarding the existence of impairment are based on market conditions, operational performance and estimated future cash flows. If the carrying value of a long-lived asset is considered impaired, an impairment charge is recorded to adjust the asset to its fair value. In addition, we test goodwill for impairment by utilizing the discounted cash flow method, as well as comparing the results to other widely acceptable valuation methods.

FORWARD OUTLOOK

The following section contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements are based on the beliefs and assumptions of management, together with information available to us when the statements were made. Future results could differ materially from those included in such forward-looking statements as a result of, among other things, the factors set forth in the "Risk Factors" section of this report and certain economic and business factors which may be beyond our control. Investors are cautioned that all forward-looking statements involve risks and uncertainty.

"BUILDING IT FORWARD 2007"

In 2002, we announced our goals for growth and diversification entitled "Building it Forward 2007." The goals call for us to:

- - Grow our sales by \$1 billion while continuing to diversify our markets, particularly by growing our industrial and site-built markets.
- - Improve our cash cycle by 10%.
- - Earn a return on capital exceeding our cost of capital.

We believe that we must complete several business acquisitions in order to achieve these goals and expect that acquisitions may comprise up to 50% of our targeted growth.

In line with the goals for growth stated above, we have targeted sales and net earnings growth of 10% to 14% for 2004.

DIY/RETAIL MARKET

The Home Improvement Research Institute forecasts an increase in retail sales from home centers and building supply outlets totaling 4% in 2004. In addition, the consolidation within the DIY/retail industry is expected to continue as top performers continue to obtain additional market share. We feel we are in a position to continue to capitalize on these industry conditions as a result of our national presence, service capabilities that meet stringent customer requirements and diversified product offering.

Notwithstanding the information above, our long-term growth objectives may be impacted by the industry's recent conversion to a new chemical used to preserve wood products. The registered manufacturers of CCA agreed to voluntarily limit the future residential uses of CCA treated wood products as of December 31, 2003. CCA treated products are still permitted for a variety of industrial and non-residential applications.

The cost of ACQ is more than four times higher than CCA. We coordinated with our chemical suppliers and conducted extensive training with our plants to achieve the quality and chemical efficiency standards necessary to maintain profitability and customer satisfaction. In addition, we estimate the new preservative will increase the cost and sales price of our treated products by approximately 10% to 15%. While we believe treated products will be reasonably priced relative to alternative products such as composites or vinyl, consumer acceptance may be impacted which would in turn affect our future operating results. (See Note N, "Commitments, Contingencies and Guarantees.")

SITE-BUILT CONSTRUCTION MARKET

As a result of improving economic factors, and the current low interest rate environment, we expect the site-built construction market to be stable in 2004. However, we believe we will obtain additional market share in 2004 as a result of planned expansion into new geographic markets, including new plants in Tecate, Mexico; Berlin, NJ; Houston and Dallas, TX; and Indianapolis, IN.

On a long-term basis, we believe the sale of engineered wood products will continue to grow because of the benefits these products provide builders over traditional carpentry methods employed on the job site, including cost advantages through more efficient labor, and consolidation toward large production-oriented builders, which tend to prefer the use of engineered products and who desire suppliers with a national presence.

We expect that business acquisitions will play a major role in our future growth in this market. In addition, we believe the trend whereby customers prefer to purchase a combination of components

and framing services will continue. Therefore, our acquisition strategy includes targeted markets for framing operations.

MANUFACTURED HOUSING MARKET

As a result of a continuation of tight credit conditions and repossessions, but improving economic factors, we expect a small increase in industry shipments to retailers. We believe we will maintain our current market share of trusses produced for Housing and Urban Development ("HUD") code homes and plan to continue efforts to gain share from new products and sales to the modular market.

INDUSTRIAL AND OTHER

One of our key strategic objectives is to increase our sales of wood packaging products to industrial users. We believe the vast amount of hardwood and softwood lumber consumed for industrial applications, combined with the highly fragmented nature of this market provides us with significant growth opportunities. To take advantage of these opportunities, we plan to continue to obtain market share through an internal growth strategy utilizing our current manufacturing capabilities and dedicated industrial sales force. On a long-term basis, we plan to evaluate strategic acquisition opportunities.

GROSS PROFIT

We believe the following factors may impact our gross profits in the future:

- We have a long-term goal of continuing to increase our ratio of value-added sales to total sales, which in turn should increase gross margins. Our acquisition and internal sales growth strategies will help us continue to make progress toward this objective. However, achievement of this goal is dependent, in part, upon certain factors that are beyond our control. (See "Impact of the Lumber Market on Our Operating Results.")
- Our ability to increase sales and gross margins on products sold to our largest customers is intended to improve margins. We believe our level of service, geographic diversity and quality of products provide an added value to our customers. If our customers are unwilling to pay for the additional services, our sales and gross margins may be reduced.
- The conversion to a new chemical to preserve wood products may impact our margins in the event consumer demand for the new preservatives is not as strong as the demand for CCA treated products. The new chemical is expected to increase the cost of our products by approximately 10% to 15%. (See Note N, "Commitments, Contingencies and Guarantees.") On a short-term

basis, margins may be impacted by our ability to achieve desired chemical efficiencies. The cost of the new chemical is more than four times higher than CCA.

 - Fluctuations in the relative level of the Lumber Market and the trend in the market price of lumber impact our gross margins. (See "Impact of the Lumber Market on Our Operating Results.")

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

SG&A costs have increased as a percentage of sales in recent years, in part, due to acquisitions of engineered wood product manufacturers which have extensive engineering and design costs. SG&A costs as a percentage of sales may continue to increase in the future as sales of engineered wood products and specialty wood packaging become a greater percentage of our total business. However, we strive to achieve economies of scale in other administrative departments as sales growth objectives are met.

LIQUIDITY AND CAPITAL RESOURCES

Management expects to spend approximately \$38 million on capital expenditures in 2004 and incur depreciation and amortization of approximately \$29 million. Besides "maintenance" capital expenditures totaling approximately \$27 million, we plan to spend an additional \$11 million to expand the business and create operating efficiencies. On December 27, 2003, we had outstanding purchase commitments on capital projects of approximately \$2.8 million.

We have no present intention to change our dividend policy, which is currently 0.050 per share paid semi-annually.

Our Board of Directors has approved a share repurchase program under which we have authorization to buy back approximately 1.5 million shares as of December 27, 2003. In the past, we have repurchased shares in order to offset the effect of issuances resulting from our employee benefit plans and at times when our stock price falls to a pre-determined level.

We are obligated to pay amounts due on long-term debt totaling approximately \$6.4 million in 2004. In addition, we expect to refinance our revolving credit facility by the end of 2004.

We have a \$200 million unsecured revolving credit facility used to support certain outstanding letters of credit and fund seasonal working capital requirements and growth. We believe our peak seasonal working capital requirements will consume an additional \$100 million of this availability through June of 2004 and then decrease for the balance of the year in line with historical trends. We plan to finance our capital requirements by using this revolving credit facility.

UNIVERSAL FOREST PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - CONTINUED

SALE OF NASCOR

In January 2004, we sold our 60% ownership in Nascor, a Calgary, Alberta-based manufacturer of engineered building products and licensor of I-joist manufacturing technology. The total sales price was \$6 million (Canadian) and we expect to record an after-tax accounting loss from the sale of our Nascor shares of approximately \$443,000 in the first quarter of 2004.

Report of Independent Auditors

To the Shareholders and Board of Directors of Universal Forest Products, Inc.

We have audited the accompanying consolidated balance sheets of Universal Forest Products, Inc. and subsidiaries as of December 27, 2003 and December 28, 2002, and the related consolidated statements of earnings, shareholders' equity and cash flows for each of the two years in the period ended December 27, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. the consolidated financial statements of Universal Forest Products, Inc. for the year ended December 29, 2001 were audited by other auditors who have ceased operations and whose report dated January 25, 2002 expressed an unqualified opinion on those statements.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Universal Forest Products, Inc. and subsidiaries at December 27, 2003 and December 28, 2002, and the consolidated results of their operations and their cash flows for each of the two years in the period ended December 27, 2003, in conformity with accounting principles generally accepted in the United States.

As discussed above, the financial statements of Universal Forest Products, Inc. as of December 29, 2001, and for the year then ended were audited by other auditors who have ceased operations. As described in Note C, these consolidated financial statements have been revised to include the transitional disclosures required by statement of Financial Accounting Standards (Statement) No. 142, goodwill and other intangible assets, which was adopted by the Company as of December 30, 2001. Our audit procedures with respect to the adjusted net earnings and adjusted earnings-per-share as shown on the consolidated statement of earnings and as described in Note C with respect to 2001 included (a) agreeing the previously reported net income to the previously issued financial statements and the adjustments to reported net income representing amortization expense (including any related tax effects) recognized in 2001 related to goodwill as a result of initially applying Statement No. 142 to the Company's underlying records obtained from management, and (b) testing the mathematical accuracy of the reconciliation of adjusted net income to reported net income, and the related earnings-per-

Share amounts. In our opinion, the disclosures for 2001 as shown on the consolidated statement of earnings and described in Note C are appropriate. However, we were not engaged to audit, review, or apply any procedures to the 2001 consolidated financial statements of the company other than with respect to such disclosures and, accordingly, we do not express an opinion or any other form of assurance on the 2001 consolidated financial statements taken as a whole.

As discussed in Note C to the consolidated financial statements, in 2002 the company changed its method of accounting for goodwill and other intangible assets.

Grand Rapids, Michigan January 27, 2004

The following report is a copy of a report previously issued by Arthur Andersen LLP in connection with the Company's Annual Report on Form 10-K for the year ended December 29, 2001. This opinion has not been reissued by Arthur Andersen LLP.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Shareholders and Board of Directors of Universal Forest Products, Inc.:

We have audited the accompanying consolidated balance sheet of Universal Forest Products, Inc. (a Michigan Corporation) and subsidiaries as of December 29, 2001, and the related consolidated statements of earnings, shareholders' equity and cash flows for the year ended December 29, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Universal Forest Products, Inc. and subsidiaries as of December 29, 2001 and the results of their operations and their cash flows for the year ended December 29, 2001, in conformity with accounting principles generally accepted in the United States.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

OPERATIONS

We engineer, manufacture, treat, distribute and install lumber, composite, plastic and other building products for the do-it-yourself/retail ("DIY/retail"), site-built construction, manufactured housing and industrial and other markets. Our principal products include preservative-treated wood, remanufactured lumber, lattice, fence panels, deck components, specialty packaging, engineered trusses, wall panels and other building products.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and partnerships. Intercompany transactions and balances have been eliminated. The equity method of accounting is used for less than 50% owned affiliates.

INVESTMENT IN AFFILIATE

On December 18, 1998, one of our subsidiaries acquired a 45% interest in Pino Exporta, renamed to Pinelli Universal S. de R.L. de C.V. ("Pinelli"), a manufacturer of moldings and millwork products. Pinelli operates out of one facility in Durango, Durango, Mexico. We exchanged \$3.0 million for our initial ownership interest in Pinelli, and accounted for our investment utilizing the equity method of accounting. In addition, we retained an option to acquire an additional 5% interest in Pinelli for \$1 million. This option was extended and exercised on January 15, 2002. As a result of this transaction, we obtained additional rights of control and thus began consolidating the results of Pinelli in the 2002 consolidated financial statements. (See Note B.)

MINORITY INTEREST IN SUBSIDIARIES

Minority interest in results of operations of consolidated subsidiaries represents the minority shareholders' share of the income or loss of various consolidated subsidiaries. The minority interest reflects the original investment by these minority shareholders combined with their proportional share of the earnings or losses of these subsidiaries, net of dividends paid.

FISCAL YEAR

Our fiscal year is a 52 or 53 week period, ending on the last Saturday of December. Unless otherwise stated, references to 2003, 2002 and 2001 relate to the fiscal years ended December 27, 2003, December 28, 2002 and December 29, 2001, respectively. Fiscal years 2003, 2002 and 2001 were comprised of 52 weeks.

FAIR VALUE DISCLOSURES OF FINANCIAL INSTRUMENTS

The estimated fair values of financial instruments have been determined in accordance with Statement of Financial Accounting Standards ("SFAS") No. 107, Disclosures about Fair Value of Financial Instruments. Significant differences in fair market values and recorded values are disclosed in Note D. The estimated fair value amounts have been determined using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that we could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value

The fair value estimates presented herein are based on pertinent information available to management as of December 27, 2003. Although we are not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and highly-liquid investments purchased with an original maturity of three months or less. Cash equivalents totaled approximately \$9.6 million and \$3.9 million as of December 27, 2003 and December 28, 2002, respectively.

As a result of our cash management system, checks issued but not presented to our bank for payment creates negative cash balances. These negative balances are included in trade accounts payable and totaled \$30.5 million and \$23.9 million as of December 27, 2003 and December 28, 2002, respectively.

RESTRICTED CASH EQUIVALENTS

Unexpended proceeds from certain borrowings, that are restricted as to use, have been excluded from cash and cash equivalents. This cash was restricted for future capital projects financed with industrial development revenue bonds.

ACCOUNTS RECEIVABLE

We perform periodic credit evaluations of our customers and generally do not require collateral. Accounts receivable are generally due within 30 days. Discounts are offered as an incentive for early payment.

Inventories are stated at the lower of average cost or market. The cost of inventories includes raw materials, direct labor and manufacturing overhead. Cost is determined on a first-in, first-out (FIFO) basis. Raw materials consist primarily of unfinished wood products expected to be manufactured or treated prior to sale, while finished goods represent various manufactured and treated wood products ready for sale.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost. Expenditures for renewals and betterments are capitalized, and maintenance and repairs are expensed as incurred. Amortization of assets held under capital leases is included in depreciation and amortized over the shorter of the estimated useful life of the asset or the lease term. Depreciation is computed principally by the straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements	15 to 31.5 years
Land improvements	5 to 15 years
Machinery, equipment and office furniture	3 to 10 years

FOREIGN CURRENCY TRANSLATION

Our foreign operations use the local currency as their functional currency. Accordingly, assets and liabilities are translated at exchange rates as of the balance sheet date and revenues and expenses are translated using weighted average rates, with translation adjustments included as a separate component of shareholders' equity. The net gain in translation adjustments was \$1.1 million for the year ended December 27, 2003. The net loss in translation adjustments was \$0.3 million for the years ended December 28, 2002 and December 29, 2001.

SELF-INSURANCE RESERVES

We are significantly self-insured for certain employee health benefits, and have self-funded retentions for general liability, automobile liability and workers' compensation. We are fully self-insured for environmental liabilities. The general liability, automobile liability, workers' compensation and environmental liabilities are managed through a wholly-owned insurance captive; the related assets and liabilities are included in the consolidated financial statements as of December 27, 2003. Through the captive we are responsible for general liability up to \$2 million per occurrence and \$4 million in aggregate; for automobile liability up to \$1 million per occurrence; and for workers' compensation up to \$1 million per accident or disease. We have purchased excess liability over our general liability, automobile liability and workers' compensation employer's liability up to \$100 million per occurrence and in aggregate. Our policy is to accrue amounts equal to actuarially determined or internally computed liabilities. The actuarial and internal valuations are based on historical information along with certain assumptions about future events. Changes in assumptions for such matters as legal actions,

medical cost trends and changes in claims experience could cause these estimates to change in the future.

INCOME TAXES

Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future. Such deferred income tax asset and liability computations are based on enacted tax laws and rates. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

REVENUE RECOGNITION AND ACCOUNTS RECEIVABLE ALLOWANCES

Revenue is recognized at the time the product is shipped to the customer. Generally, title passes at the time of shipment. In certain circumstances, the customer takes title when the shipment arrives at the destination. However, our shipping process is typically completed the same day.

Earnings on construction contracts are reflected in operations by the percentage-of-completion method, measured by the relationships of actual costs incurred related to the total estimated costs. Revisions in earnings estimates on construction contracts are recorded in the accounting period in which the basis for such revisions becomes known. Projected losses on individual contracts are charged to operations in their entirety when such losses become apparent.

We base our allowances related to receivables on historical credit and collections experience, and the specific identification of other potential problems, including the economic climate. Actual collections can differ, requiring adjustments to the allowances. Individual accounts receivable balances are evaluated on a monthly basis, and those balances considered to be uncollectible are charged to the allowance. Collections of amounts previously written off are recorded as an increase to the allowance.

The following table presents the activity in our accounts receivable allowances (in thousands):

	Ве	alance at ginning Period	Ch Co	ditions arged to sts and xpenses	Uncollectible Accounts Written Off (Net)(1)	of A Prev	overy mounts iously ten Off	Balance at End of Period.
Year ended December 27, 2003: Allowance for possible losses on accounts receivable	\$	2,427	\$	17,817	(\$18,694)	\$	341	\$ 1,891
Year ended December 28, 2002: Allowance for possible losses on accounts receivable		1,803		17,500	(16,981)		105	2,427

Year ended December 29, 2001: Allowance for possible losses					
on accounts receivable	1,340	15,298	(15,286)	451	1,803

(1) Includes effects of foreign currency translation.

We record estimated sales returns, discounts and other applicable adjustments as a reduction of net sales in the same period revenue is recognized.

SHIPPING AND HANDLING OF PRODUCT

Shipping and handling costs that are charged to and reimbursed by the customer are recognized as revenue. Costs incurred related to the shipment and handling of products are classified in cost of goods sold.

EARNINGS PER SHARE

Basic earnings per share ("EPS") is calculated based on the weighted average number of common shares outstanding during the periods presented. Diluted EPS is calculated based on the weighted average number of common and common equivalent shares outstanding during the periods presented, giving effect to stock options granted (see Note I) utilizing the "treasury stock" method.

A reconciliation of the changes in the numerator and the denominator from the calculation of basic EPS to the calculation of diluted EPS follows (in thousands, except per share data):

			2003					2002			
	Income (Num- erator)	Shares (Denom- inator)	Per Share Amount	Income (Num- erator)	Shares (Denom- inator)	Per Share Amount	Income (Num- erator)	Shares (Denom- inator)	Per Share Amount		
NET EARNINGS	\$40,119			\$36,637			\$ 33,142				
EPS - BASIC Income available to common stockholders	40,119	17,761	\$2.26 =====	36,637	17,922	\$2.04 =====	33,142	19,774	\$1.68 =====		
EFFECT OF DILUTIVE SECURITIES Options EPS - DILUTED Income available to common		618			697			603			
stockholders and assumed options exercised	\$40,119 ======	18,379 =====	\$2.18 =====	\$36,637 ======	18,619 =====	\$1.97 =====	\$ 33,142 ======	20,377 =====	\$1.63 =====		

Options to purchase 295,000 shares of common stock at exercise prices ranging from \$22.88 to \$36.01 were outstanding as of December 27, 2003, but were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock during the period and, therefore, would be antidilutive.

Options to purchase 749,771 shares of common stock at exercise prices ranging from \$21.84 to \$36.01 were outstanding as of December 28, 2002, but were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock during the period and, therefore, would be antidilutive.

Options to purchase 399,548 shares of common stock at exercise prices ranging from \$19.75 to \$36.01 were outstanding as of December 29, 2001, but were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock during the period and, therefore, would be antidilutive.

LONG-LIVED ASSETS

Prior to December 30, 2001, we evaluated the recoverability of our long-lived assets by determining whether unamortized balances could be recovered through undiscounted future operating cash flows over the remaining lives of the assets in accordance with the provisions of SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of ("SFAS 121"). If the sum of the expected future cash flows was less than the carrying value of the assets, an impairment loss was recognized for the excess of the carrying value over the fair value. The estimated fair value was determined by discounting the expected future cash flows at a rate that would have been required for a similar investment with like risks.

Effective December 30, 2001 (the first day of our fiscal year ending December 28, 2002), we adopted SFAS No. 144, Accounting for the Impairment and Disposal of Long-Lived Assets ("SFAS 144"). SFAS 144 supercedes SFAS 121, and the accounting and reporting provisions of the Accounting Principles Board ("APB") Opinion No. 30, Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. SFAS 144 retains the provisions of SFAS 121 for recognition and measurement of impairment of long-lived assets to be held and used, and measurement of long-lived assets to be disposed of by sale. Discontinued operations are no longer measured on a net realizable value basis, and future operating losses are no longer recognized before they occur. The impact of adopting this standard has not been significant to our consolidated financial statements.

STOCK-BASED COMPENSATION

As permitted under SFAS No. 123, Accounting for Stock-Based Compensation, ("SFAS 123"), we continue to apply the provisions of APB Opinion No. 25, Accounting for Stock Issued to Employees, which recognizes compensation expense under the intrinsic value method. Had compensation cost for the stock options granted and stock purchased in 2003, 2002 and 2001 been determined under the fair value based method defined in SFAS 123, our net earnings and earnings per share would have been reduced to the following pro forma amounts (in thousands, except per share data):

		2003		2002		2001
Net Earnings:						
As Reported Deduct: Compensation expense -	\$	40,119	\$	36,637	\$	33,142
fair value method		(1,743)		(1,571)		(1,371)
Pro Forma	 \$	38,376	 \$	35,066	 \$	31,771
	==:	=======	ф ===	=======	===	=======
EPS - Basic:						
As Reported	\$	2.26	\$	2.04	\$	1.68
Pro Forma	\$	2.16	\$	1.96	\$	1.61
EPS - Diluted:						
As Reported Pro Forma	\$ \$	2.18 2.13	\$ \$	1.97 1.93	\$ \$	1.63 1.56

The fair value of each option granted in 2003, 2002 and 2001 is estimated on the date of the grant using the Black-Scholes option pricing model with the following weighted average assumptions.

	2003	2002	2001
Risk Free Interest Rate	4.6%	4.6%	4.6%
Expected Life	6.5 years	5.0 years	4.5 years
Expected Volatility	28.25%	27.52%	26.62%
Expected Dividend Yield	0.40%	0.40%	0.40%

USE OF ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. We believe our estimates to be reasonable; however, actual results could differ from these estimates.

RECLASSIFICATIONS

Certain reclassifications have been made in the 2002 and 2001 consolidated financial statements to conform to the classifications used in 2003.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. SFAS No. 150 modifies the definition of "liabilities" in SFAS No. 6, "Elements of Financial Statements," to encompass certain obligations that a reporting entity can or must settle by issuing its own common shares. The Statement affects accounting for three types of freestanding financial instruments, (i) mandatorily redeemable shares which an issuing company is obligated to buy back in exchange for cash or other assets, (ii) put options or forward purchase contracts that do or may require the issuer to buy back some of its shares in exchange for cash or other assets, and (iii) obligations that can be settled with shares, the monetary value of which is fixed, tied solely or predominantly to a variable such as a market index, or varies inversely with the value of the issuee's shares. The Statement considers each of these types of instruments as a liability, as opposed to recent practice that may have classified the instrument as mezzanine financing or equity, and increases disclosures for alternate settlement methods. This Statement was effective beginning in our fiscal third quarter, and adoption of this statement had no effect on our consolidated financial statements.

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, as revised December 2003 (FIN 46(R)). This new rule requires that companies consolidate a variable interest entity if the company is entitled to receive a majority of the risk of loss from the variable interest entity's activities, or is entitled to receive a majority of the entity's residual returns, or both. We do not have any special purpose entities, as defined, nor have we acquired a variable interest in an entity where we are the primary beneficiary since January 31, 2003. The provisions of FIN 46(R) currently are required to be applied as of the end of the first reporting period that ends after March 15, 2004 for the variable interest entities in which we hold a variable interest that we acquired on or before January 31, 2003. We do not expect that the implementation of Interpretation 46(R) will have a material effect on our consolidated balance statements.

B. BUSINESS COMBINATIONS AND ASSET PURCHASES

Each of the following business combinations have been accounted for as a purchase. Accordingly, in each instance, the purchase price was allocated to the assets acquired, liabilities assumed and identifiable intangible assets as applicable based on their fair market values at the date of acquisition. Any excess of the purchase price over the fair value of the acquired assets, including identifiable intangible assets, and assumed liabilities was recorded as goodwill in each transaction. For business combinations prior to June 30, 2001, we amortized goodwill on a straight-line basis over periods ranging from 20 to 40 years. Non-compete and licensing agreements are amortized on a straight-line basis over the term of the agreements. In July 2001, the FASB issued SFAS No. 141, Business Combinations, and requires that all business combinations be accounted for using the purchase method and further clarifies the criteria to recognize intangible assets separately from goodwill. The results of operations of each acquisition is included in our consolidated financial statements since the date it was acquired.

On August 28, 2003, one of our subsidiaries acquired 50% of the assets of D&L Framing LLC, a framing operation for multi-family construction located in Las Vegas, NV. The purchase price was approximately \$0.6 million which was primarily allocated to goodwill.

On August 26, 2003, one of our subsidiaries entered into an agreement with Quality to cancel the treating services agreement completed on November 4, 2002 and purchase plants located in Lansing, MI and Janesville, WI and the equipment of a plant located in White Bear Lake, MN. The total purchase price for these assets was \$5.1 million and is included in purchases of PP&E in the consolidated statement of cash flows. In addition, another subsidiary entered into a capital lease for the real estate of the White Bear Lake, MN plant totaling \$2.1 million.

On June 4, 2003, one of our subsidiaries acquired 75% of the assets of Norpac Construction LLC, a concrete framer for multi-family construction located in Las Vegas, NV. The purchase price was approximately \$0.2 million.

On November 4, 2002, one of our subsidiaries acquired a facility from Quality Wood Treating Co., Inc. ("Quality") in Prairie du Chien, WI, which produces EverX(R) composite decking. The total purchase price for the real estate, equipment, inventory and intangible assets was approximately \$14.7 million, allocating \$10.1 million to net assets, \$2.3 million to non-compete agreements, \$0.5 million to a licensing agreement and \$1.8 million to goodwill. Quality had composite decking net sales in fiscal 2001 totaling approximately \$2 million. In addition, we entered into a treating services agreement with Quality. Under the terms of this agreement, we purchased substantially all of the inventory of Quality for approximately \$7.5 million, Quality agreed to provide exclusive treating services to us for a five year term, and we agreed to monthly and annual minimum volumes.

On September 9, 2002, one of our subsidiaries acquired certain assets of J.S. Building Products, Inc., ("JS") a site-built component manufacturer in Modesto, CA. The total purchase price for the assets was approximately \$2.2 million. On October 22, 2002, we purchased the

real property from JS where the operation is located. The total purchase price was \$1.9 million. The purchase price allocates \$2.9 million to net assets and \$1.2 million to goodwill. JS had net sales of approximately \$5 million in 2001.

On April 10, 2002, one of our subsidiaries acquired certain assets and entered into an exclusive licensing agreement with Inno-Tech Plastics, Inc. ("Inno-Tech"), which operates one facility in Springfield, IL. The total purchase price for these assets was approximately \$4.1 million, allocating \$2.1 million to net assets acquired and \$2.0 million to a licensing agreement. Inno-Tech had net sales in fiscal 2001 totaling approximately \$1.3 million.

On January 15, 2002, one of our subsidiaries acquired an additional 5% interest in Pinelli, increasing our ownership to 50%. The purchase price for the additional 5% was approximately \$0.9 million, allocating \$0.3 million to net assets acquired and \$0.6 million to goodwill. As a result of this transaction, we obtained additional rights of control and thus began consolidating the results of Pinelli in the 2002 consolidated financial statements. In 2001, Pinelli had net sales of \$31 million and net earnings of \$0.6 million. In 2001 and 2000, we accounted for Pinelli under the equity method.

On October 15, 2001, one of our subsidiaries acquired the assets of P&R Truss Company, Inc. and the stock of P&R Truss-Sidney, Inc. (collectively "P&R"). P&R has plants in Auburn, Chaffee, Hudson and Sidney, New York. The total purchase price was approximately \$21.0 million, allocating \$10.4 million to net assets acquired, \$0.7 million to identifiable intangibles (non-compete agreements), and the remaining \$9.9 million to goodwill. P&R had net sales in fiscal 2000 totaling approximately \$23 million.

On June 1, 2001, three of our subsidiaries acquired certain assets of the Superior Truss Division of Banks Corporation ("Superior"). The assets include operations in Syracuse, Indiana and Minneota, Minnesota which serve the site-built construction market. The total purchase price for the assets was approximately \$11.0 million, allocating \$8.9 million to net assets and \$2.1 million to goodwill. Superior had net sales in fiscal 2000 totaling approximately \$20 million.

On April 3, 2001, several of our subsidiaries acquired certain assets of the Sunbelt Wood Component Division ("Sunbelt") of Kevco, Inc. The assets include operations in New London, North Carolina; Haleyville, Alabama; Ashburn, Georgia; and Glendale, Arizona which serve the manufactured housing market. The total purchase price for the assets was approximately \$7.8 million. Sunbelt had net sales in fiscal 2000 totaling approximately \$63 million.

On February 28, 2001, one of our subsidiaries acquired 50% of the assets of D&R Framing Contractors ("D&R") of Englewood, Colorado for approximately \$7.6 million, allocating \$0.7 million to net assets and \$6.9 million to goodwill. D&R had net sales in fiscal 2000 totaling approximately \$44 million.

The acquisitions in 2003 and 2002 were not significant to our operating results individually nor in the aggregate, and thus pro forma results are not presented. the

following unaudited pro forma consolidated results of operations for the year ended December 29, 2001 assumes the acquisitions of P&R, Superior and D&R occurred as of the beginning of the periods presented (in thousands, except per share data).

		R ENDED R 29, 2001
Net sales	\$1,	559,756
Net earnings	\$	34,739
Earnings per share: Basic Diluted	\$ \$	1.76 1.70
Weighted average shares outstanding Basic Diluted		19,774 20,377

The pro forma results above include certain adjustments to give effect to amortization of goodwill, interest expense, compensation of management, certain other adjustments and related income tax effects. The pro forma results are not necessarily indicative of the operating results that would have occurred had the acquisitions been completed as of the beginning of the period presented, nor are they necessarily indicative of future operating results. Pro forma results are not presented for Sunbelt. In 2001, we purchased certain assets of this operation out of Chapter 11 bankruptcy. As a result of substantial changes in the operations and customer base, pro forma results are not meaningful.

C. GOODWILL AND OTHER INTANGIBLE ASSETS

Effective December 30, 2001, we adopted SFAS No. 142, Goodwill and Other Intangible Assets ("SFAS 142"). This statement changed the accounting and reporting for goodwill and other intangible assets. Goodwill is no longer amortized; however, tests for impairment are performed annually and if a triggering event occurs. The effect of applying the non-amortization provisions of SFAS 142 in 2001 are shown separately in the accompanying consolidated statement of earnings. We tested for transition as well as annual impairment by utilizing the discounted cash flow method, as well as comparing the results to other widely acceptable valuation methods, none of which resulted in impairment of goodwill.

On December 31, 2002, the Chairman of the Board retired as an employee of Universal Forest Products, Inc., and we entered into a non-compete agreement with him which provides for monthly payments of \$12,500 for a term of seven years. The present value of these payments has been recorded in Other Liabilities.

On December 27, 2003, non-compete assets totaled \$7.9 million with accumulated amortization totaling \$3.1 million, and licensing agreements totaled \$2.9 million with accumulated amortization of \$0.9 million.

On December 28, 2002, non-compete assets totaled \$4.7 million with accumulated amortization totaling \$2.1 million, and licensing agreements totaled \$2.3 million with accumulated amortization of \$0.4 million.

Amortization is computed principally by the straight-line method over the estimated useful lives of the intangible assets as follows:

Non-compete agreements.....5 to 11 yearsLicensing agreements.....5 to 20 years

Amortization expense for intangibles totaled \$2.0 million for the year ended December 27, 2003. The estimated amortization expense for intangibles for each of the five succeeding fiscal years is as follows (in thousands):

2004	\$1,634
2005	1,478
2006	1,302
2007	788
2008	486
Thereafter	1,103

The changes in the net carrying amount of goodwill for the year ended December 27, 2003 are as follows (in thousands):

Balance as of December 28, 2002	\$126,299
Final purchase price allocation of Quality and JS	(2,810)
Goodwill acquired	550
Foreign currency translation effects and other net	989
Balances as of December 27, 2003	\$125,028
	=======

D. DEBT

On December 18, 2002, we completed a \$55 million private placement of senior unsecured notes payable. The notes have an average life of over nine years and an average interest rate of 6.0%.

On November 25, 2002, we completed a three-year, \$200 million unsecured revolving credit facility, which includes amounts reserved for letters of credit. This facility replaced our \$175 million and \$20 million Canadian facilities. Borrowings under the revolver are charged interest at a rate of 125 basis points over the applicable Eurodollar rate. The average

borrowing rate on these facilities was 3.7% and 2.3% in 2003 and 2002, respectively. The amount outstanding on the revolving credit facility is included in the long-term debt summary below.

Outstanding letters of credit extended on our behalf aggregated \$31.4 million on December 27, 2003, which includes approximately \$18.3 million related to industrial development revenue bonds. Letters of credit have terms ranging from one to five years, and include an automatic renewal clause. The letters of credit are charged an annual interest rate of 1.25%.

Long-term debt and capital lease obligations are summarized as follows on December 27, 2003 and December 28, 2002 (amounts in thousands):

	2003	2002
1994 Senior unsecured notes, \$5,714,000 due annually commencing May 1998 through May 2004, interest due semi-annually at 7.15% Series 1998-A Senior Notes Tranche A, due on December 21, 2005, interest payable	\$ 5,714	\$ 11,429
semi-annually at 6.69%	21,500	21,500
Series 1998-A Senior Notes Tranche B, due on December 21, 2008, interest payable semi-annually at 6.98% Series 1998-A Senior Notes Tranche C, due on December 21, 2008, interest payable	59,500	59,500
semi-annually at 6.98%	19,000	19,000
Series 2002-A Senior Notes Tranche A, due on December 18, 2009, interest payable semi-annually at 5.63% Series 2002-A Senior Notes Tranche B, due on December 18, 2012, interest payable	15,000	15,000
semi-annually at 6.16% Revolving credit facility totaling \$200 million due on November 25, 2005, interest	40,000	40,000
due monthly at a floating rate (1.86% on December 27, 2003) Series 1998 Industrial Development Revenue Bonds, due on December 1, 2018, interest	27,058	53,383
payable monthly at a floating rate (1.33% on December 27, 2003) Series 1999 Industrial Development Revenue Bonds, due on July 1, 2029, interest	1,300	1,300
payable monthly at a floating rate (1.24% on December 27, 2003) Series 1999 Industrial Development Revenue Bonds, due on August 1, 2029, interest	2,400	2,400
payable monthly at a floating rate (1.12% on December 27, 2003)	3,300	3,300
payable monthly at a floating rate (1.23% on December 27, 2003) Series 2000 Industrial Development Revenue Bonds, due on November 1, 2020, interest payable monthly at a floating rate	2,700	2,700

(1.24% on December 27, 2003) Series 2001 Industrial Development Revenue Bonds, due on November 1, 2021, interest	2,400	2,400
payable monthly at a floating rate (1.24% on December 27, 2003) Series 2002 Industrial Development Revenue Bonds, due on December 1, 2022, interest	2,500	2,500
payable monthly at a floating rate (1.22% on December 27, 2003)	3,700	3,700
Capital lease obligations, interest imputed at rates ranging from 7.25% to 8.00%	2,320	226
Other	3,068	3,476
Less current portion	211,460 6,411	241,814 6,495
Long-term portion	\$205,049 ======	\$235,319 ======

Financial covenants on the unsecured revolving credit facility and unsecured notes include a minimum net worth requirement, minimum interest coverage tests and a maximum leverage ratio. The agreements also restrict the amount of additional indebtedness we may incur and the amount of assets which may be sold. We were within all of our lending requirements on December 27, 2003.

On December 27, 2003, the principal maturities of long-term debt and capital lease obligations are as follows (in thousands):

2004	\$ 6,411
2005	49,100
2006	542
2007	499
2008	80,979
Thereafter	73,929
	\$211,460

On December 27, 2003, the estimated fair value of our long-term debt, including the current portion, was \$215.2 million, which was \$3.7 million greater than the carrying value. The estimated fair value is based on rates anticipated to be available to us for debt with similar terms and maturities. The estimated fair value of short-term debt included in current liabilities approximated the carrying value. The weighted-average rate on this short-term debt was 6.99% at December 27, 2003.

E. LEASES

Leased property included in the balance sheet on December 27, 2003 and December 28, 2002 is as follows (in thousands):

	2003		2002	
Land and improvements Buildings and improvements Machinery and equipment		230 2,061 431	\$	19 161 392
Less accumulated amortization		2,722 (278)		572 (168)
	\$	2,444	\$	404
	===	=====	===	=====

We lease certain real estate under operating lease agreements with original terms ranging from one to ten years. We are required to pay real estate taxes and other occupancy costs under these leases. Certain leases carry renewal options of five to fifteen years. We also lease motor vehicles and equipment under operating lease agreements for periods of one to ten years. Future minimum payments under non-cancellable leases on December 27, 2003 are as follows (in thousands):

	Capital	Operating	
	Leases	Leases	Total
2004	\$ 84	\$ 9,931	\$10,015
2005	97	7,138	7,235
2006	103	4,747	4,850
2007	55	2,304	2,359
2008	2,709	793	3,502
Subsequent	267	267	
Total minimum lease payments	\$ 3,048	\$ 25,180	\$28,228
		========	=======
Less imputed interest	(728)		
Present value of minimum lease payments	\$ 2,320		
	======		

Rent expense was approximately 15.4 million, 12.7 million and 11.2 million in 2003, 2002 and 2001 respectively.

F. DEFERRED COMPENSATION

We have a program whereby certain executives irrevocably elected to defer receipt of certain compensation in 1985 through 1988. Deferred compensation payments to these executives will commence upon their retirement. We purchased life insurance on such executives, payable to us in amounts which, if assumptions made as to mortality experience, policy dividends and other factors are realized, will accumulate cash values adequate to reimburse us for all payments for insurance and deferred compensation obligations. In the event cash values are not sufficient to fund such obligations, the program allows us to reduce benefit payments to such amounts as may be funded by accumulated cash values. The deferred compensation liabilities and related cash surrender value of life insurance policies are included in "Other Liabilities" and "Other Assets," respectively.

We also maintain a non-qualified deferred compensation plan (the "Plan") for the benefit of senior management employees who may elect to defer a portion of their annual bonus payments. The Plan provides investment options similar to our 401(k) plan, including our stock. Investments in shares of our stock are made on a "phantom stock" basis, and may only be distributed in kind. Assets held by the Plan totaled approximately \$2.1 million and \$1.9 million on December 27, 2003 and December 28, 2002, respectively, and are included in "Other Assets." Related liabilities totaled \$4.1 million and \$3.4 million on December 27, 2003 and December 28, 2002, respectively, and are included in "Other Liabilities" and "Shareholders' Equity." The assets are recorded at fair market value. The related liabilities are recorded at fair market value, with the exception of the phantom stock which is recorded at the market value on the date of deferral. In 2003, 37,678 shares were issued under this Plan, which included a distribution to a participant and shares held in the Rabbi trust.

SALE OF ACCOUNTS RECEIVABLE

G.

On September 25, 2003, we entered into an arrangement with a bank to sell specific accounts receivable totaling \$27.2 million with an Agreed Base Value of approximately \$25 million, which was received in cash. Approximately \$2.0 million was recorded as a retained interest and approximately \$168,000 was recognized as an expense. The maximum amount of receivables which may be sold and outstanding at any point in time under this arrangement is \$33 million. The agreement with the bank has a one year term. Each new sale may have a term ranging from one month to a year. The September 25, 2003 transaction terminated on December 31, 2003. We will service the sold receivables as part of the arrangement with the bank and will receive servicing fees in the amount of .50% per annum. Our retained interest is determined based on the fair market value of anticipated collections in excess of the Agreed Base Value of the receivables sold. The fair market value of anticipated collections is determined using management's best estimate based on historical collections experience. Appropriate valuation allowances are recorded against the retained interest. The retained interest is reduced for subsequent collections. On December 27, 2003, Factored Receivables and Retained Interest totaled \$9.7 million and \$0.5 million, respectively.

On January 2, 2004, we sold specific accounts receivable totaling \$19.4 million with an Agreed Base Value of approximately \$18 million, which was received in cash. Approximately \$1.5 million was recorded as a retained interest and approximately \$110,000 was recognized as an expense. The January 2, 2004 transaction terminates on March 31, 2004.

COMMON STOCK

н.

On June 1, 1993, shareholders approved the Incentive Stock Option Plan (the "Plan") for our officers. Options for the purchase of all 1,200,000 shares of our common stock authorized under the Plan have been granted. The Plan provides that the options are exercisable only if the officer is employed by us at the time of exercise and holds at least seventy-five percent of the individuals' shares held on April 1, 1993. The Plan also requires the option shares to be held for periods of six months to three years. The remaining options are exercisable within thirty days of the anniversary of the Plan in 2005 through 2008.

In January 1994, the Employee Stock Gift Program was approved by the Board of Directors which allows us to gift shares of stock to eligible employees based on length of service. We gifted 2,397 shares, 798 shares and 1,552 shares of stock under this Plan in 2003, 2002 and 2001, respectively, and recognized the market value of the shares at the date of issuance as an expense totaling approximately \$51,000, \$23,000 and \$26,000 respectively.

In April 1994, shareholders approved the Employee Stock Purchase Plan ("Stock Purchase Plan") and Director Retainer Stock Plan ("Stock Retainer Plan"). In April 2002, shareholders approved the 2002 Employee Stock Purchase Plan ("2002 Stock Purchase Plan") to succeed the Stock Purchase Plan. The plans allow eligible employees to purchase shares of our stock at a share price equal to 85% of fair market value on the purchase date. In 2003, 2002 and 2001, 24,469 shares, 13,125 shares and 12,264 shares, respectively, were issued under this Plan for amounts totaling approximately \$417,000, \$243,000 and \$183,000, respectively. The weighted-average fair value of these shares was \$17.04, \$18.54 and \$14.95, respectively.

The Stock Retainer Plan allows eligible members of the Board of Directors to defer their retainer fees and receive shares of our stock at the time of their retirement, disability or death. The number of shares to be received is equal to the amount of the retainer fee deferred multiplied by 110% divided by the fair market value of a share of our stock at the time of deferral, is increased for dividends declared and may only be distributed in kind. We have accrued, in "Accrued Liabilities - Other," approximately \$355,000 and \$370,000 on December 27, 2003 and December 28, 2002, respectively, for amounts incurred under this Plan. In 2003, 6,156 shares were issued as part of a distribution from the Plan for an amount totaling approximately \$98,000.

In January 1997, we instituted a Directors' Stock Grant Program. In lieu of a cash increase in the amount of Director fees, each outside Director receives 100 shares of stock for each board meeting attended up to a maximum of 400 shares per year. In 2003, 2002 and 2001, we issued 1,600 shares, 1,400 shares and 1,500 shares, respectively, and recognized the market value of the shares on the date of issuance as an expense totaling approximately \$35,000, \$31,000 and \$32,000, respectively.

On April 28, 1999, the shareholders approved the Long Term Stock Incentive Plan (the "1999 Plan") to succeed the 1997 Long Term Stock Incentive Plan (the "1997 Plan"). The 1999 Plan

reserves a maximum of 1,000,000 shares, plus 406,029 shares remaining under the 1997 Plan, plus an annual increase of no more than 200,000 shares which may be added on the date of the annual meeting of shareholders each year. The 1999 Plan provides for the granting of stock options, reload options, stock appreciation rights, restricted stock, performance shares and other stock-based awards. The term of the 1999 Plan is ten years. In 2003, 2002 and 2001, we granted stock options for 140,000 shares, 576,769 shares and 390,597 shares, respectively.

On April 17, 2002, under the 1999 Plan, a Conditional Share Grant Agreement was executed which will grant the Chief Executive Officer 10,000 shares of common stock immediately upon the satisfaction of the terms and conditions set forth in the Agreement. We have accrued in shareholders equity approximately \$41,000 and \$21,000 on December 27, 2003 and December 28, 2002, respectively, for this grant.

As of December 27, 2003, a total of 3,000,558 shares are reserved for issuance under the plans mentioned above and under Note I below.

On October 21, 1998, the Board of Directors approved a share repurchase program (which succeeded a previous program) allowing us to repurchase up to 1,800,000 shares of our common stock. On October 18, 2000 and November 14, 2001, the Board of Directors authorized an additional 1,000,000 shares and 2,500,000 shares, respectively, to be repurchased under the program. In 2003, 2002 and 2001, we repurchased 123,234 shares, 2,199,435 shares and 109,482 shares, respectively, under these programs. As of December 27, 2003, cumulative total authorized shares available for repurchase is 1.5 million shares.

I. STOCK OPTIONS AND STOCK-BASED COMPENSATION

Stock options issued under the Long Term Stock Incentive Plan are granted to employees and officers at exercise prices which equaled or exceeded the market value of the stock on the date of grant. The options are exercisable from three to fifteen years from the date of grant and the recipients must be employed by us at the date of exercise.

Options were granted in 2003, 2002 and 2001 with exercise prices which were equal to the market prices on the date of grant.

Stock option activity since the end of 2000 is summarized as follows:

	Shares of	Weighted		Weighted	
	Common Stock	Average		Average	
	Attributable to	Exercise Price		Fair Value of	
	Options	of Options		Options Granted	
Outstanding on December 30, 2000 Granted	1,661,538 390,597	\$ \$	12.95 14.13	\$	4.15

Outstanding on December 27, 2003	1,995,516	\$ 16.83	
	=============		

Options to purchase 55,003 shares were exercisable at December 27, 2003 with a weighted average price of \$13.01. Options to purchase 20,000 shares were exercisable at December 28, 2002 with a weighted average price of \$20.03. No options were exercisable on December 29, 2001. The following table summarizes information concerning options on December 27, 2003:

Range of Exercise Prices Outstanding Contractual Life \$4.25 - \$10.00 235,000 3.02 \$10.01 - \$14.00 413,530 2.70 \$14.01- \$18.00 490,245 3.58 \$18.01 - \$21.00 157,827 1.79 \$21.01 - \$23.00 413,914 3.88 \$23.01 - \$25.00 195,000 5.67 \$25.01 - \$36.01 90,000 8.56		Number	Weighted-Average Remaining

In December 2002, the FASB issued SFAS No.148, Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No. 123 ("SFAS 148"). SFAS 148 amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair-value based method of accounting for stock-based employee compensation and the effect of the method used on reported results. We do not intend to adopt a fair-value based method of accounting for stock-based employee compensation until a final standard is issued by the FASB that addresses industry concerns related to applicability of current option pricing models to non-exchange traded employee option plans.

EMPLOYEES' STOCK NOTES RECEIVABLE

J.

Notes were obtained by us from certain officers for the purchase of our common stock. On April 30, 2002, we sold 12,555 shares of common stock to three officers in exchange for additional notes receivable totaling approximately \$300,000. Interest on all of the outstanding notes range from fixed rates of five to eleven percent per annum and a variable rate of the prime rate less 10% (minimum 6%, maximum 12%). Each loan is evidenced by a promissory note from the participating officer and is secured by all of the shares purchased with the loan proceeds. As of August 1, 2002, we no longer issue notes to executive officers under this program.

On April 30, 2003, we sold 57,232 shares of common stock to employees in exchange for notes receivable totaling almost \$900,000. Interest on these notes is fixed at 4.8% per annum. Each loan is evidenced by a promissory note from the participating employee and is secured by all of the shares purchased with the loan proceeds.

All loans are recourse loans. On December 27, 2003, payments on the notes are due as follows (in thousands):

2004	\$	193
2005		62
2006		124
2007		113
2008		82
Thereafter		
	\$1	,872
	==	====

K. LIFE INSURANCE

We maintain an officer's life insurance policy on the Chairman with a death benefit of \$1.3 million. The cash surrender value on this policy on December 28, 2002 and December 29, 2001 is included in "Other Assets." During 2003, this policy was purchased by the Chairman of the Board for approximately \$190,000, which was equal to its cash value.

RETIREMENT PLANS

L.

We have a profit sharing and 401(k) plan for the benefit of substantially all of our employees excluding the employees of certain subsidiaries. Amounts contributed to the plan are made at the discretion of the Board of Directors. On July 1, 2003, the plan of a wholly-owned subsidiary merged with our plan. We made a profit sharing contribution of approximately \$384,000 and \$682,000 in 2002 and 2001, respectively. In addition, we matched 50% of employee contributions in 2003, 2002 and 2001, on a discretionary basis, totaling \$2.9 million, \$2.1 million and \$1.8 million in 2003, 2002 and 2001, respectively. We made an additional discretionary match of approximately \$311,000 in 2003. The basis for matching contributions may not exceed the lesser of 6% of the employee's annual compensation or \$11,500.

In addition, a wholly-owned subsidiary acquired in 1998 has a 401(k) plan for the benefit of substantially all of its employees. This subsidiary matched 50% of employee contributions, on a discretionary basis, totaling \$583,000 and \$586,000 in 2002 and 2001, respectively.

M. INCOME TAXES

Income tax provisions for the years ended December 27, 2003, December 28, 2002, and December 29, 2001 are summarized as follows (in thousands):

	2003	2002	2001
Currently payable: Federal	\$ 19,331	\$ 17,196	\$ 12,801
State and local Foreign	2,296 952	2,590 (509)	1,385 421
	22,579	19,277	14,607
Net Deferred:			
Federal	2,422	1,753	4,430
State and local Foreign	(443) (233)	462 1,491	447 128
	1,746	3,706	5,005
	\$ 24,325	\$ 22,983 ======	\$ 19,612 =======

The effective income tax rates are different from the statutory federal income tax rates for the following reasons:

	2003	2002	2001
Statutory federal income tax rate State and local taxes (net of	35.0%	35.0%	35.0%
federal benefits)	1.8	3.2	2.2

	====	====	====
Effective income tax rate	37.0%	37.0%	36.1%
Other, net	0.3	(0.2)	(1.3)
in earnings of partnerships	(0.1)	(1.0)	(0.9)
Effect of minority owned interest			
Goodwill			1.1

We have no present intention of remitting undistributed earnings of certain foreign subsidiaries aggregating \$6.4 million on December 27, 2003 and, accordingly, no deferred tax liability has been established relative to these earnings. If these amounts were not considered permanently reinvested, a deferred tax liability of approximately \$898,000 would have been required.

Temporary differences which give rise to deferred tax assets and (liabilities) on December 27, 2003 and December 28, 2002 are as follows (in thousands):

	2003	2002
Employee benefits Foreign subsidiary net operating loss. Depreciation Inventory Accrued expenses All other, net	\$ 4,322 9 (14,919) (382) 279 (2,811)	\$ 4,369 64 (13,002) (480) 548 (3,234)
Valuation allowance	\$(13,502) (651) \$(14,153) ========	\$(11,735) (672) \$(12,407) =======

The valuation allowance consists of a capital loss carryforward we have related to a prior investment in a wholly-owned subsidiary, UFP de Mexico. We do not anticipate realizing a future benefit from this loss carryforward, therefore, we have established an allowance for the entire amount of the future benefit. This carryforward will expire at the end of 2005. The foreign subsidiary net operating loss carryforward also expires in 2005.

COMMITMENTS, CONTINGENCIES AND GUARANTEES

Ν.

We are insured for environmental impairment liability through a wholly owned subsidiary, UFP Insurance Ltd., a licensed captive insurance company. We own and operate a number of facilities throughout the United States that chemically treat lumber products. In connection with the ownership and operation of these and other real properties, and the disposal or treatment of hazardous or toxic substances, we may, under various federal, state and local environmental laws, ordinances and regulations, be potentially liable for removal and remediation costs, as well as other potential costs, damages and expenses. Insurance reserves, calculated primarily with no discount rate, have been established to cover remediation activities at our Union City, GA; Stockertown, PA; Elizabeth City, NC; Auburndale, FL; Schertz, TX; and Janesville, WI wood preservation facilities. In August of 2002, we purchased property in Thornton, CA on which several old buildings existed. The environmental assessment indicated that these buildings contained small amounts of asbestos. A reserve has been established to cover the removal of the asbestos. Since we determined we will no longer operate the North East, MD facility as a wood preservation location, during the third quarter of 2002 we completed the process of closing the conditioning pad, in accordance with applicable regulations and the reserve was reduced accordingly.

Including amounts from the captive insurance company, we have reserved amounts totaling approximately \$1.9 million on December 27, 2003 and December 28, 2002, representing the estimated costs to complete remediation efforts.

The manufacturers of CCA preservative agreed to voluntarily discontinue the registration of CCA for certain residential applications as of December 31, 2003. As a result, 21 of our 24 wood preservation facilities were converted to an alternate preservative, ACQ, in the third and fourth quarters of 2003. The remaining facilities were converted to either ACQ or borates during January 2004.

In November 2003, the EPA published its report on the risks associated with the use of CCA in children's playsets. While the study observed that the range of potential exposure to CCA increased by the continuous use of playsets, the EPA concluded that the risks were not sufficient to require removal or replacement of any CCA treated structures. The EPA did refer a question on the use of sealants to a scientific advisory panel, which has not yet issued its report.

The results of the EPA study are consistent with a prior Consumer Products Safety Commission (CPSC) study which reached a similar conclusion.

We have been requested by a customer to defend it from purported class action lawsuits filed against it in Florida, Louisiana, Texas and Illinois. The complaints do not allege personal injury or property damage. As previously stated, our vendors believe and scientific studies support the fact that CCA treated lumber poses no unreasonable risks, and we intend to vigorously defend this position. While our customer has charged us for certain expenses incurred in the defense of these claims, we have not formally accepted liability of these costs.

The Florida claim was denied class action status, and is presently under appeal. We, along with others in the industry, were previously named as a defendant in the purported class action lawsuit in Louisiana. We have been dismissed from this litigation.

In addition, various special interest environmental groups have petitioned certain states requesting restrictions on the use or disposal of CCA treated products. The wood preservation industry trade groups are working with the individual states and their regulatory agencies to provide an accurate, factual background which demonstrates that the present method of uses and disposal is scientifically supported.

We believe the remaining claims are without merit and therefore have not accrued for any potential loss related to the contingencies above. However, potential liabilities of this nature are not conducive to precise estimates. To the extent we are required to defend these actions, we intend to do so vigorously.

In addition, on December 27, 2003, we were parties either as plaintiff or a defendant to a number of lawsuits and claims arising through the normal course of our business. In the opinion of management, our consolidated financial statements will not be materially affected by the outcome of these contingencies and claims.

On December 27, 2003, we had outstanding purchase commitments on capital projects of approximately \$2.8 million.

We provide a variety of warranties for products we manufacture. Historically, warranty claims have not been material.

In certain cases we jointly bid on contracts with framing companies to supply building materials to site-built construction projects. In some of these instances we are required to post payment and performance bonds to insure the owner that the products and installation services are completed in accordance with our contractual obligations. We have agreed to indemnify the surety for claims made against the bonds. Historically, we have not had any claims for indemnity from our sureties. As of December 27, 2003, we had approximately \$26.6 million in outstanding performance bonds which expire during the next three to eighteen months.

We have entered into operating leases for certain assets that include a guarantee of a portion of the residual value of the leased assets. If at the expiration of the initial lease term we do not exercise our option to purchase the leased assets and these assets are sold by the lessor for a price below a predetermined amount, we will reimburse the lessor for a certain portion of the shortfall. These operating leases will expire periodically over the next five years. The estimated maximum aggregate exposure of these guarantees is less than \$800,000.

Under our sale of accounts receivable agreement, we guarantee that Universal Forest Products RMS, LLC, as servicer, will remit collections on receivables sold to the bank. (See Note G.)

On December 27, 2003, we had outstanding letters of credit totaling \$31.4 million, primarily related to certain insurance contracts and industrial development revenue bonds.

In lieu of cash deposits, we provide irrevocable letters of credit in favor of our insurers to guarantee our performance under certain insurance contracts. We currently have irrevocable letters of credit outstanding totaling approximately \$13.1 million for these types of insurance arrangements. We have reserves recorded on our balance sheet, in accrued liabilities, that reflect our expected future liabilities under these insurance arrangements.

We are required to provide irrevocable letters of credit in favor of the bond trustees for all of the industrial development revenue bonds that we have issued (See Note D). These letters of credit guarantee principal and interest payments to the bondholders. we currently have irrevocable letters of credit outstanding totaling approximately \$18.3 million related to our outstanding industrial development revenue bonds. These letters of credit have varying terms but may be renewed at the option of the issuing banks.

Our wholly owned domestic subsidiaries have guaranteed the indebtedness of Universal Forest Products, Inc. in certain debt agreements, including the 1994 Senior Notes, Series 1998-A Senior Notes, Series 2002-A Senior Notes and our revolving credit facility. The maximum exposure of these guarantees is limited to the indebtedness outstanding under these debt arrangements and this exposure will expire concurrent with the expiration of the debt agreements (See Note D).

SEGMENT REPORTING

0.

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information ("SFAS 131") defines operating segments as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Under the definition of a segment, our Eastern and Western Divisions may be considered an operating segment of our business. Under SFAS 131, segments may be aggregated if the segments have similar economic characteristics and if the nature of the products, distribution methods, customers and regulatory environments are similar. We have chosen to aggregate our divisions into one reporting segment. Our divisions operate manufacturing and treating facilities throughout North America.

In 2003, 2002 and 2001, 30%, 30% and 33% of net sales, respectively, were to a single customer.

Information regarding principal geographic areas was as follows (in thousands):

	2003		20	2002		2001		
	Net Sales	Long-Lived Tangible Assets	Long-Lived Tangible Net Sales Assets		e Tangible Tang		Long-Lived Tangible Assets	
United States Foreign	\$1,813,257 85,573	\$ 182,514 38,111	\$1,559,530 80,369	\$ 181,761 28,121	\$1,483,110 47,243	\$ 172,407 20,840		
Total	\$1,898,830 =======	\$220,625	\$1,639,899 =======	\$ 209,882	\$1,530,353 =======	\$ 193,247		

Sales generated in Canada and Mexico are primarily to customers in the United States of America.

The following table presents, for the periods indicated, our percentage of value-added and commodity-based sales to total sales.

	Value-Added	Commodity-Based
2003	51.1%	48.9%
2002	50.8%	49.2%
2001	48.4%	51.6%

Value added product sales consist of fencing, decking, lattice and other specialty products sold to the DIY/retail market, specialty wood packaging, engineered wood products and "wood alternative" products. Wood alternative products consist primarily of composite wood and plastic. Although we consider the treatment of dimensional lumber with certain chemical preservatives a value-added process, treated lumber is not presently included in the value-added sales totals. Commodity-based product sales consist primarily of remanufactured lumber and preservative treated lumber.

P. QUARTERLY FINANCIAL INFORMATION (UNAUDITED)

The following table sets forth selected financial information for all of the quarters, each consisting of 13 weeks, during the years ended December 27, 2003 and December 28, 2002 (in thousands, except per share data):

	Fir	st	Sec	ond	Thi	rd	Fou	rth
	2003	2002	2003	2002	2003	2002	2003	2002

per share	0.25	0.32	0.94	0.82	0.66	0.58	0.34	0.25

Q. SUBSEQUENT EVENTS

In January 2004, we sold our 60% ownership in Nascor, a Calgary, Alberta-based manufacturer of engineered building products and licensor of I-joist manufacturing technology. The total sales price was \$6 million (Canadian) and we expect to record an after-tax accounting loss from the sale of our Nascor shares of approximately \$443,000 in the first quarter of 2004. Our common stock trades on the Nasdaq National Market tier of the Nasdaq Stock Market under the symbol UFPI. The following table sets forth the range of high and low sales prices as reported by Nasdaq.

Fiscal 2003	High	Low	Fiscal 2002	High	Low
Fourth Quarter	31.74	24.25	Fourth Quarter	22.00	16.04
Third Quarter	26.10	19.98	Third Quarter	24.14	17.47
Second Quarter	21.50	15.41	Second Quarter	26.75	21.67
First Quarter	21.99	15.01	First Quarter	26.18	20.28

There were approximately 5,500 shareholders of record as of March 1, 2004.

In 2003, we paid dividends on our common stock of \$.045 per share in June and \$.050 per share in December. In 2002, we paid dividends on our common stock of \$.045 per share in June and \$.045 per share in December. We intend to continue with our current dividend policy for the foreseeable future.

Directors and Executive Officers

Board of Directors Peter F. Secchia Chairman of the Board Universal Forest Products, Inc.

William G. Currie Vice Chairman of the Board and Chief Executive Officer Universal Forest Products, Inc.

CONSENT OF INDEPENDENT AUDITORS

We consent to the incorporation by reference in this Form 10-K of Universal Forest Products, Inc. and subsidiaries of our report dated January 27, 2004, included in the 2003 Annual Report to Shareholders of Universal Forest Products, Inc. and subsidiaries.

We also consent to the incorporation by reference in the Registration Statement File Numbers 33-81128, 33-81116, 33-84632, 33-81450, 333-60630 and 333-88056 on Form S-8 and Registration Statement File Number 333-75278 on Form S-3 of our report dated January 27, 2004, with respect to the consolidated financial statements of Universal Forest Products, Inc. and subsidiaries, incorporated by reference in the Form 10-K for the year ended December 27, 2003.

/s/ Ernst & Young LLP ERNST & YOUNG LLP Grand Rapids, Michigan March 11, 2004

INFORMATION CONCERNING CONSENT OF ARTHUR ANDERSEN LLP

We have not been able to obtain, after reasonable efforts, the re-issued report or consent of Arthur Andersen LLP related to the consolidated financial statements of the Company for the year ended December 29, 2001, including in this report on Form 10-K. Therefore, we have included a copy of their previously issued report.

Because we have been unable to obtain the above-referenced consent of Arthur Andersen LLP, we are required to disclose any resulting limitations on recovery by investors. Section 11(a) of the Securities Act of 1933 allows, under certain circumstances, a person acquiring a security to assert a claim against, among others, an accountant who has consented to be named as having prepared any report for use in connection with the registration statement if part of a registration statement at the time it becomes effective contains an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading. Because Arthur Andersen LLP has not consented to being named in this Form 10-K, it will not be liable under Section 11(a) of the Securities Act for any untrue statements or omissions of material fact contained in the financial statements audited by Arthur Andersen LLP.

CERTIFICATION

I, William G. Currie, certify that:

- I have reviewed this report on Form 10-K of Universal Forest Products, Inc.;
- 2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15e and 15d-15e) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report, based on such evaluation; and
 - c. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the Audit Committee of registrant's Board of Directors (or persons performing the equivalent function):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
