

Universal Forest Products Posts Another Strong Quarter; Reports 20% Increase in Net Earnings

October 11, 2004

The Company raises its targeted range for diluted earnings per share growth to 12% to 15% for the year

GRAND RAPIDS, Mich., Oct. 11 /PRNewswire-FirstCall/ -- Universal Forest Products, Inc. (Nasdaq: UFPI) today announced record results for the third quarter, including a 20% increase in net earnings. Net earnings for the third quarter 2004 were \$14.6 million, compared to net earnings of \$12.2 million for the same period in 2003. For the year-to-date 2004, net earnings were \$39.9 million, an increase of 18% over year-to-date net earnings of \$33.9 million in 2003.

Universal reported net sales for the quarter of \$709.3 million, a 32.3% increase over net sales of \$536.3 million in the third quarter of 2003. Net sales for the first nine months of 2004 were \$1.92 billion, a 32.8% increase over net sales of \$1.44 billion for the same period in 2003. The higher lumber market accounted for 21% of the net sales increase for the third quarter 2004 and for 22% of the 2004 year-to-date net sales increase.

"We continue to successfully execute our growth strategy, thanks to the determination of the people of Universal, who are focused on the Company's goals," said CEO and Vice Chairman William G. Currie.

"These numbers are the result of hard work and determination -- the very qualities that have spurred Universal's success for nearly 50 years," he added.

The Company produced significant year-over-year sales increases of 74% and 52% in its site-built construction and industrial markets, respectively. Both are markets in which Universal sees strong opportunity for continuing growth. "Although we enjoy leadership positions in these arenas, we believe there's a tremendous opportunity to expand market share and we'll continue to leverage our strengths to grow in these fragmented markets," he said.

In addition, Currie expressed optimism for the growing modular housing segment of the manufactured housing market. "We have some exciting new products that are allowing manufacturers to enhance and customize their homes, and that means opportunity for Universal," Currie said.

He noted that D-I-Y sales remain soft due to increases in lumber costs, which may be prompting homeowners to delay improvement projects; the hurricanes that effectively put a halt to improvement projects during the quarter in Florida and the Southeastern United States; and the higher cost of treated wood due to industry changes in the treating compounds, which may be affecting consumers' purchasing decisions.

Following are Universal's third-quarter 2004 sales by market:

- * \$280.7 million in D-I-Y/retail, an increase of 7.2% from the same period last year;
- * \$194.6 million in site-built construction, an increase of 73.8% over last year;
- * \$127.4 million in industrial/other, a 51.5% increase over last year; and
- * \$106.5 million in manufactured housing, a 35.9% increase over last year.

Based on the strength of its year-to-date results, the Company raised its targeted range for earnings per share growth to between 12% and 15% (previously it was between 10% and 14%). The Company also reaffirmed its unit sales growth targeted range of between 10% and 14% for the year.

Universal Forest Products will conduct a conference call to discuss information included in this news release and related matters at 11:00 a.m. EDT on Tuesday, Oct. 12, 2004. The conference call will be hosted by William G. Currie and will be available for analysts and institutional investors domestically at (866) 814-1933 or internationally at (703) 639-1365. Use conference call ID #570112. The conference call will be available simultaneously, and in its entirety, to all interested investors and news media through a webcast at http://www.ufpi.com.

Universal Forest Products markets, manufactures, and engineers wood and wood-alternative products for D-I-Y retail home centers, structural lumber products for the manufactured housing industry, engineered wood components for the site-built construction market and specialty wood packaging, wood and composite components for various industries. Among the Company's newest and fastest-growing ventures are framing and installation services for the site- built and retail sectors. In conjunction with its customers, Universal uses its engineering and manufacturing expertise, coupled with highly skilled employees, to design and construct buildings and decks. For information about Universal Forest Products on the Internet, please visit the Company's web site at http://www.ufpi.com , or call 888-Buy-UFPI.

Included in this report are certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements are based on the beliefs of the Company's management as well as on assumptions made by and information currently available to the Company at the time such statements were made. Actual results could differ materially from those included in such forward-looking statements. Investors are cautioned that all forward-looking statements involve risks and uncertainty. Among the factors that could cause actual results to differ materially are the following: Adverse lumber market trends, competitive activity, negative economic trends, government regulations, and weather. These risk factors and additional information are included in the Company's reports on Form 10K and 10Q on file with the Securities and Exchange Commission.
